MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

HENRY E. CHAMBERLIN,
City Clerk.

ORDINANCES AND RESOLUTIONS.

PASSED DURING THE YEAR ENDING JANUARY 23, 1913.

CITY OF CONCORD—ORDINANCES

AN ORDINANCE ENLARGING THE CITY AND WARD ONE STREET SPRINKLING PRECINCTS.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the territory abutting on and included in that section of the city bounded and described as follows, is hereby added to the city street sprinkling precinct: Commencing at the junction of South and Allison streets; thence southerly on South Street to Carter Street; thence easterly on Carter Street to Broadway; thence northerly on Broadway to Allison Street; thence westerly on Allison Street to the point begun at, meaning to add to the territory already included in said precinct, Eastman Street, Kimball Street, Pillsbury Street from South Street to Broadway, and Carter Street from South Street to Broadway; also the following described territory: Commencing at the junction of Bradley and Penacook Streets; thence westerly on Penacook Street to Rumford Street; thence southerly on Rumford Street to Church Street; thence easterly on Church to Bradley Street; thence northerly on Bradley Street to the point begun at, meaning to add to the territory already included in said precinct Highland Street, Albin Street, Perkins Street, Martin Street, Jackson Street from Church Street to Highland Street; Walker Street from Bradley Street to Rumford Street, Penacook Street from Bradley Street to Rumford Street, and Rumford Street from Penacook Street to Church; also Rumford Street from Penacook Street to North State Street; also Avon Street from Clinton Street to South Street.

SECT. 2. That the Ward One street sprinkling precinct be and hereby is enlarged to include Walnut Street from the corner of Center Street and Bye Street from Walnut Street to Merrimack Street.

SECT. 3. That all the territory included by or abutting on the streets mentioned in the two preceding sections with their inhabitants, shall be included in their respective street sprinkling precincts.

SECT. 4. This ordinance shall take effect upon its passage.

Passed March 11, 1912.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE GARBAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. There shall be raised, and there is hereby ordered to be raised on the polls and ratable estates within the Garbage Precinct of said city, the sum of seven thousand dollars (\$7,000) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be appropriated as follows:

For the collection of garbage and refuse matter in said precinct \$7,000

SECT. 2. There shall be raised in like manner the sum of forty-eight thousand five hundred two and 50-100 dollars (\$48,502.50) for the support of schools for the ensuing financial year, which, together with the income of the Abigail Walker fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one half of the income from the sale of lots and the income derived from the care of lots and grading, which sum shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city hotels trust fund shall be paid from the money appropriated for the care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the Public Library in the purchase of books the amount collected for fines.

SECT. 5. This ordinance shall take effect upon its passage.

Passed March 29, 1912.

AN ORDINANCE PROHIBITING THE DISTRIBUTION OF CERTAIN LITERATURE AND MEDICINE.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That no person shall in any part of the City of Concord distribute hand-bills, cards, papers or advertising matter of any kind or description, which purport to describe symptoms of so-called medical diseases, and prescribe cures therefor, and

SECT. 2. That no person shall in any part of the City of Concord distribute free samples of medicine of any description whatever, which purport to cure the diseases mentioned in section one of this ordinance.

SECT. 3. Any person violating any of the provisions of this ordinance shall be fined not exceeding twenty dollars for each offence.

SECT. 4. This ordinance shall take effect upon its passage.

Passed April 8, 1912.

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE PASSED APRIL 8, 1907, RELATIVE TO THE EMPLOYMENT OF TEAMS.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That an ordinance passed April 8, 1907, relative to the employment of teams be, and hereby is, amended by striking out the whole of section one of said ordinance and substituting the following:

SECTION 1. The heads of departments employing teams for the use of the city are hereby authorized to pay for said team four dollars and fifty cents per day of nine hours or such proportionate part of four dollars and fifty cents as the time worked bears to nine hours for each two-horse team with driver, provided such driver be paid by the owner of said team not less than one dollar and seventy-five cents per day.

Passed May 13, 1912.

AN ORDINANCE FIXING THE SALARY OF SPECIAL POLICEMEN.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. Each special police officer shall receive at the rate of two dollars and fifty cents (\$2.50) in full for each day's service.

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed May 13, 1912.

AN ORDINANCE PRESCRIBING THE PAY OF FIREMEN IN THE CITY PROPER.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That call firemen in the city proper shall be paid one hundred dollars per annum, lieutenants of companies one hundred and five dollars, captains one hundred and ten dollars, steam fire engineers one hundred and thirty-five dollars, and assistant engineers one hundred and forty-five dollars.

SECT. 2. This ordinance shall take effect upon its passage.

Passed June 10, 1912.

AN ORDINANCE PROVIDING FOR THE SEMI-MONTHLY PAYMENT OF MEMBERS OF THE FIRE DEPARTMENT, INCLUDING THE CHIEF.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That all permanent members of the Fire Department including the chief shall be paid semi-monthly.

SECT. 2. This ordinance shall take effect upon its passage.

Passed July 8, 1912.

AN ORDINANCE FIXING COMPENSATION FOR ADDITIONAL CLERICAL
HELP IN THE ASSESSOR'S OFFICE.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the sum of two hundred and four dollars (\$204) be, and hereby is, appropriated, out of any money in the treasury not otherwise appropriated, in payment of bill of John H. Leary account of extra work in the office of the Board of Assessors.

SECT. 2. This ordinance shall take effect upon its passage.

Passed Sept. 9, 1912.

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE PASSED MARCH
29, 1912, ENTITLED "AN ORDINANCE FIXING AND DETERMINING
THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINAN-
CIAL YEAR FOR THE USE OF THE CITY."

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That an ordinance passed March 29, 1912, entitled "An Ordinance Fixing and Determining the Amount of Money to be Raised for the Ensuing Financial Year for the Use of the City" be amended by striking out of Section 1 under Highway Department the words "Permanent Work, North Main Street, Pearl to Chapel, \$2,700.00," and insert in the place thereof the words "Permanent Work, West Concord Road from West Concord cemetery so far South as money permits—\$2,700.00."

SECT. 2. This ordinance shall take effect on its passage.

Passed Oct. 14, 1912.

AN ORDINANCE FIXING A DATE FOR THE PAYMENT OF POLL TAXES,
REAL ESTATE TAXES AND PERSONAL PROPERTY TAXES FOR 1912.

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the poll taxes and taxes assessed upon personal property for the year 1912 shall be deemed due and payable at the collector's office on or before the first day of January, 1913; and if the same shall not then be paid notice may be served upon all persons whose said taxes remain unpaid, who shall pay the sum of 20c for such notice according to the provisions of Section 19, Chapter 60, of the Public Statutes.

SECT. 2. That all interest which shall accrue between December 1, 1912, and January 1, 1913, upon taxes assessed upon real estate during the year 1912, be, and the same is hereby abated.

Passed Nov. 11, 1912.

AN ORDINANCE ADOPTING THE PROVISIONS OF CHAPTER 129 OF THE SESSION LAWS OF 1909 ENTITLED "AN ACT TO LICENSE PAWN-BROKERS AND TO REGULATE THE CONDUCT OF THEIR BUSINESS."

Be it ordained by the Board of Aldermen of the City of Concord as follows:

SECTION 1. The provisions of Chapter 129 of the Session Laws of 1909 entitled "An Act to License Pawnbrokers and to Regulate the Conduct of Their Business" is hereby adopted to be in force in the City of Concord.

SECT. 2. This ordinance shall take effect upon its passage.

Passed Jan. 13, 1913.

JOINT RESOLUTIONS.

A RESOLUTION IN RELATION TO PAYING SALARIES, PAY-ROLLS AND RENTS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, pay-rolls and rents as the same shall become due during the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 23, 1912.

A RESOLUTION PROVIDING FOR THE PRINTING OF ROSTERS OF THE CITY GOVERNMENT.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the city clerk be instructed to prepare a roster of the present city government and cause copies thereof to be printed and that the expense of printing the same be charged to the account of printing and stationery.

Passed January 23, 1912.

A RESOLUTION AUTHORIZING THE COMMITTEE OF LANDS AND BUILDINGS TO MAKE CURRENT REPAIRS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the committee on lands and buildings be authorized to expend such sums as may be necessary for current repairs, not exceeding three hundred dollars in any one month, the same to be charged to the appropriation for repairs to buildings.

Passed January 23, 1912.

A RESOLUTION PROVIDING FOR THE PRINTING OF THE MAYOR'S INAUGURAL ADDRESS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the city clerk be authorized and instructed to have printed copies of the mayor's inaugural address, the expense of the same to be charged to the account of printing and stationery.

Passed January 23, 1912.

A RESOLUTION ASKING FOR SEALED PROPOSALS FOR PRINTING AND BINDING THE ANNUAL CITY REPORTS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the city clerk be, and hereby is, instructed to ask for sealed proposals for printing and binding the City reports for the year 1911 and submit the same to the finance committee, who shall have full power to act in the matter.

Passed January 23, 1912.

A RESOLUTION PROVIDING FOR A SPECIAL COMMITTEE OF INVESTIGATION.

Resolved by the Board of Aldermen of the City of Concord as follows:

That a special committee consisting of five members, viz., His Honor the Mayor, the City Solicitor and three members of the Board of Aldermen, to be appointed by the Mayor, be appointed to make a thorough investigation, and report to this Board at an early date, as to the price at which illuminating gas can be manufactured, with a view to determining if it be not possible to obtain from the Concord Light & Power Co., illuminating gas for the citizens of Concord at a lower price than now prevails; and authority is hereby granted such special committee to secure the attendance of such persons and papers and to expend such a reasonable sum or sums, out of any money now in the treasury not otherwise appropriated, as may be necessary for such purpose.

Passed March 11, 1912.

A RESOLUTION APPROPRIATING TEN HUNDRED TWENTY AND FIVE ONE-HUNDREDTHS DOLLARS FOR TEXT-BOOKS USED IN UNION SCHOOL DISTRICT.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the sum of ten hundred twenty and five one-hundredths dollars (\$1,020.05) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of text-books used in Union School District.

SECT. 2. This resolution shall take effect upon its passage.

Passed March 11, 1912.

A RESOLUTION RELATIVE TO PRINTING THE REVISION OF THE CITY ORDINANCES.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the mayor and the city clerk are hereby authorized to invite bids for the printing of the revision of the city ordinances and

SECT. 2. That in the discretion of the mayor, said clerk and the city solicitor, thirty copies of said revision may be printed in the form of a proposed revision, for the use of the mayor and aldermen, prior to the printing of the final revision.

Passed March 11, 1912.

A RESOLUTION AUTHORIZING THE TRANSFER OF TWO HUNDRED AND TWENTY-TWO DOLLARS FROM THE GENERAL CITY FUND TO THE CITY SEWER PRECINCT FUND.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of two hundred and twenty-two dollars (\$222) received as rental for the use of the portable engine belonging to the equipment of the city sewer precinct be transferred by the city treasurer from the general city funds to the credit of the city sewer precinct.

Passed March 11, 1912.

A RESOLUTION AUTHORIZING THE TRANSFER OF FUNDS OF THE WEST CONCORD SEWERAGE PRECINCT.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the city treasurer be, and hereby is, authorized to transfer the sum of four hundred dollars (\$400) from the West Concord Sewerage Precinct sinking fund account to the city treasury, said fund to constitute a part of the amount to be raised for the sinking fund for 1912 which, together with one thousand dollars (\$1,000) raised by taxation, amounts to one thousand four hundred dollars (\$1,400), the sum required by ordinance.

Passed March 22, 1912.

A RESOLUTION RELATIVE TO THE AUDITORIUM.

Resolved by the Board of Aldermen of the City of Concord as follows:

Whereas, the lease of the Auditorium to George D. Waldron will expire May 5, 1912, the question of whether the lease shall be renewed,

or what disposition shall be made of the Auditorium after the expiration of said lease, is hereby referred to the Mayor and Committee on Lands and Buildings with full power to act as in their judgment shall seem for the best interest of the city.

Passed March 29, 1912.

A RESOLUTION EXEMPTING CERTAIN NEW CAPITAL OF THE ABBOT AND DOWNING COMPANY FROM TAXATION FOR A TERM OF TEN YEARS.

Resolved by the Board of Aldermen of the City of Concord as follows:

Whereas, It is represented that the business of the late Abbot-Downing Company is to be re-established in the City of Concord, capable of giving employment to over two hundred hands, and that new and additional capital is to be invested in said business and

Whereas, It is represented that the re-establishment of said business would be of great benefit to the City of Concord and that the exemption from taxation for a period of ten years of the new capital invested therein would be an inducement and aid thereto,

Now, therefore, voted that the Abbot and Downing Company are hereby exempted from taxation for a period of ten years from the date of the passage of this resolution upon any new and additional capital invested in said business.

That for the purpose of distinguishing between what is new capital and old capital invested in said business, the present assessed valuation of said Abbot and Downing Company shall be taken as a basis for the old capital, and all the rest of the property shall be considered new capital and exempt from taxation.

Passed March 29, 1912.

A RESOLUTION REQUESTING THE PUBLIC SERVICE COMMISSION TO INVESTIGATE AND ASCERTAIN WHETHER THE COST OF GAS IN THE CITY OF CONCORD IS EXCESSIVE AND UNREASONABLE.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That it is the opinion of this board that the cost of gas in the city at the present rate is excessive and unreasonable.

SECT. 2. That the city solicitor be, and hereby is, instructed to file in the name of the city a formal complaint with the Public Service Commission, setting forth therein the sense of this board as expressed in section one of this resolution, and praying that said commission examine into the said cost of gas in the city in accordance with Session Laws of 1911, chapter 164, section 10 c, said complaint to close with a

prayer for such relief as to said commission seems just and reasonable, under and by virtue of section 11 c of said chapter 164 of said Session Laws of 1911.

SECT. 3. That the city solicitor be and hereby is authorized to represent the city before said commission at said investigation in so far as in his opinion seems necessary, and to incur the necessary expense, incident to a proper presentation of facts before said commission, in so far as it is the duty of the city to so present said facts.

Passed April 8, 1912.

A RESOLUTION APPROPRIATING THE SUM OF THREE HUNDRED TWENTY-FIVE DOLLARS FOR THE PURCHASE OF A HORSE FOR THE CENTRAL FIRE STATION.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of three hundred twenty-five dollars (\$325) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of a horse for the Central Fire Station; said sum to be expended under the direction of the chief of the fire department.

Passed April 8, 1912.

A RESOLUTION PROVIDING FOR A SPECIAL COMMITTEE ON THE JOHN KIMBALL PLAYGROUND.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Mayor is hereby authorized to appoint a special committee, to consist of two members of the Board of Aldermen and one member of the Woman's Club, to have charge of and expend the appropriation for the John Kimball Playground for the year 1912.

Passed April 12, 1912.

FOR PRINTING AND STATIONERY.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of one thousand dollars (\$1,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for printing and stationery.

Passed July 8, 1912.

A RESOLUTION AUTHORIZING THE WITHDRAWAL OF THE GAS COMPLAINT.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the Concord Light & Power Company has satisfied this Board that said company will reduce the price of gas in the city of Concord five cents per one thousand feet commencing August 1, 1912, and

SECT. 2. That the city solicitor be, and hereby is, instructed to withdraw the complaint of this Board against said company from the Public Service Commission, upon the taking effect of such reduction.

Passed July 29, 1912.

A RESOLUTION APPROPRIATING MONEY FOR SOUHOOK CEMETERY FENCE.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of two hundred fifty dollars (\$250) be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated for repairing the old fence and the building of a new fence around the plot recently added to Souhook Cemetery, and that Nahum Prescott, undertaker of said cemetery, be authorized to expend said sum.

Passed August 12, 1912.

A RESOLUTION APPROPRIATING THE SUM OF THREE THOUSAND DOLLARS
FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of three thousand dollars (\$3,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for incidentals and land damages.

Passed August 12, 1912.

A RESOLUTION IN RELATION TO A TEMPORARY LOAN NOT EXCEEDING TWENTY-FIVE THOUSAND DOLLARS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Committee of Finance are hereby authorized to borrow on the credit of the city a sum not to exceed twenty-five thousand dollars (\$25,000) for current expenses in anticipation of taxes for the year 1912, upon such terms and for such amounts as the committee shall determine.

Passed September 21, 1912.

A RESOLUTION AUTHORIZING THE BOARD OF PUBLIC WORKS TO INVESTIGATE THE SUBJECT OF STREET LIGHTING.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Board of Public Works are hereby authorized and instructed to investigate the subject of street lighting and for that purpose to visit some other city and such actual expense as may be necessary to reasonably investigate the subject be paid out of the appropriation for incidentals and land damages when approved by the mayor.

Passed October 9, 1912.

A RESOLUTION APPROPRIATING THREE HUNDRED DOLLARS FOR THE PURCHASE OF THE OLD QUAKER CEMETERY LOT.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the sum of three hundred dollars (\$300) be, and the same is hereby, appropriated out of money in the treasury not otherwise appropriated for the purpose of purchasing the old Quaker cemetery lot, so-called, adjoining the Minot enclosure in the Old North Cemetery.

SECT. 2. That the mayor be, and hereby is, authorized to purchase said lot in the name of the city after the title has been approved by the city solicitor.

Passed October 14, 1912.

A RESOLUTION APPROPRIATING MONEY FOR REPAIRS AT MILLVILLE CEMETERY.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of fifty dollars (\$50) be, and the same hereby is, appropriated for painting fence and buildings connected with Millville Cemetery; the same to be charged to the account of incidentals and land damages.

Passed October 14, 1912.

A RESOLUTION IN RELATION TO A TEMPORARY LOAN NOT TO EXCEED TWENTY-FIVE THOUSAND DOLLARS.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Committee on Finance are hereby authorized to borrow on the credit of the city a sum not to exceed twenty-five thousand dollars (\$25,000) for current expenses in anticipation of taxes for the year 1912, upon such terms and for such amounts as the Committee shall determine.

Passed October 14, 1912.

A RESOLUTION EXEMPTING THE BRAMPTON WOOLEN COMPANY FROM TAXATION ON NEW CAPITAL.

Resolved by the Board of Aldermen of the City of Concord as follows:

Whereas, It is represented that the Brampton Woolen Company proposes to operate the plant formerly operated by the Concord Manufacturing Company in Penacook, so-called, in the City of Concord, and proposes to install new machinery and appliances and to build such additions as may be necessary, and thus put said plant into first class operating condition, and

Whereas, It is believed that these additions and improvements will be of especial benefit to this City and the citizens thereof: now, therefore,

Voted, that said The Brampton Woolen Company be, and hereby is, exempted from taxation for a period of five years from the date of the passage of this resolution upon the new machinery, fixtures, stock and new construction to be installed by it and upon any new and additional capital invested in said plant.

Passed November 11, 1912.

A RESOLUTION AUTHORIZING THE BOARD OF PUBLIC WORKS TO NEGOTIATE THE TERMS OF A LIGHTING CONTRACT WITH THE CONCORD LIGHT AND POWER COMPANY.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Board of Public Works is hereby constituted a committee with power to negotiate the terms of a contract with the Concord Light and Power Company for the lighting of the streets of the City by gas lights, the terms of said contract to be submitted to and passed upon by the full Board.

Passed December 9, 1912.

A RESOLUTION AUTHORIZING THE BOARD OF PUBLIC WORKS TO NEGOTIATE THE TERMS OF A LIGHTING CONTRACT WITH THE CONCORD ELECTRIC COMPANY.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the Board of Public Works is hereby constituted a committee with power to negotiate the terms of a contract with the Concord Electric Company for the lighting of the streets of the City by electric lights, the terms of said contract to be submitted to and passed upon by the full Board.

Passed December 9, 1912.

A RESOLUTION PROVIDING FOR THE ACCEPTANCE OF A PLOT OF LAND ON KIMBALL STREET FOR HIGHWAY PURPOSES.

Resolved by the Board of Aldermen of the City of Concord as follows:

That a plot of land on Kimball Street offered by Patrick McCann be, and the same is hereby, accepted for highway purposes.

Passed December 9, 1912.

A RESOLUTION PROVIDING FOR AN INVESTIGATION OF THE POLICE DEPARTMENT.

Resolved by the Board of Aldermen of the City of Concord as follows:

That in view of the fact that certain criticisms have been made by citizens of the city concerning certain members of the police department

with respect to their conduct in recovering the body of a person recently drowned in Horse Shoe Pond, so-called, a special committee of three aldermen be appointed by the mayor to inquire into the facts surrounding said incident and to report its conclusions to this board with recommendations as to the action which should be taken.

Passed December 9, 1912.

A RESOLUTION EXEMPTING THE NEW ENGLAND BOX COMPANY FROM TAXES DURING A PERIOD OF TEN YEARS.

Resolved by the Board of Aldermen of the City of Concord as follows:

Whereas the New England Box Company, incorporated under the laws of the State of Maine, desires to locate its factory and carry on its business in the City of Concord, provided sufficient inducements are given it by the city government:

That if the New England Box Company will locate and establish its business in this city and will expend not less than \$50,000, in the erection of a factory to carry on said business, said factory and the real estate upon which the same is located and the machinery therein and the capital necessary in conducting said business shall be exempted from all taxation for a period of ten years from April 1, 1913.

Passed December 16, 1912.

A RESOLUTION APPROPRIATING THE SUM OF THREE HUNDRED AND NINETY-TWO DOLLARS AND FORTY-THREE CENTS TO REIMBURSE THE MANCHESTER TRACTION, LIGHT AND POWER COMPANY AND CHARLES L. WALLACE FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the sum of three hundred and ninety-two dollars and forty-three cents be, and the same is hereby appropriated, to reimburse the Manchester Traction, Light and Power Company \$390.00, taxes for the year 1912, and Charles L. Wallace \$2.43 taxes for the year 1911, the same having been erroneously assessed. The same to be charged to the account of incidentals and land damages.

Passed December 30, 1912.

A RESOLUTION AUTHORIZING THE MAYOR TO SIGN THE LIGHTING CONTRACT.

Resolved by the Board of Aldermen of the City of Concord as follows:

That the mayor be, and hereby is, authorized to sign in the name of the City a contract, for lighting the streets of the city, with the Concord Electric Company, said contract to embody all the terms and conditions agreed upon by and between said company and the Board of Public Works in the name of the city.

Passed December 30, 1912.

A RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the Board of Aldermen of the City of Concord as follows:

SECTION 1. That the sum of eight thousand seventeen and forty one hundredths dollars be, and hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay outstanding claims as follows:

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected in December, 1910, for one year, and biennially thereafter in November, beginning in the year 1911.

REPORT OF THE BOARD OF EDUCATION
FOR THE YEAR ENDING
MARCH 14, 1913.

CONCORD, N. H., March 3, 1913.

To the Citizens of Union School District:

The Board of Education of Union School District hereby presents its fifty-third annual report. It gives the Board pleasure in stating that the schools of Union School District have been maintained during the year with efficiency and the results obtained have, as a rule, proved satisfactory to all concerned.

It is with expression of deepest regret that the School Board loses this year, by the resignation of Dr. Vannevar, a most valuable member, who served the Board as its President, was always wise in counsel and had a warm personal interest in helping to advance modern conditions for the schools of the city. On the resignation of Dr. Vannevar the Board elected Hon. George H. Moses to fill the vacancy.

The interest in the Manual Training School is still increasing and we feel that this branch of our school system is working out successfully, with results that are highly appreciated by the parent and pupil. The report of Principal French you will find of interest and we feel that the recommendations made by him should have careful consideration.

The new system of grading and promotion suggested by Superintendent Rundlett and put in operation by him, with the approval of the Board, is proving satisfactory and Superintendent Rundlett is deserving of much credit for working out so commendable a system, which is attract-

ing the attention of noted educators, and the plan has received much favorable comment from them.

The Board is confronted this year with the problem—what shall be done with the Merrimack school? This is the oldest school building in the district and has become antiquated and out of date and, in the Board's opinion, wholly unfit to be used longer as a school building. There has recently been presented to the Board a petition signed by a large number of taxpayers and residents, requesting the Board to give their earnest attention to the matter of providing a sanitary and safe school building for pupils attending the Merrimack school. The Board of Education fully realizes the unfavorable condition of the Merrimack school and feels it their duty to recommend to the voters of Union School District, at the coming annual meeting, the appropriation of a sum large enough to build a school building that will take care of all pupils now attending the Merrimack school, and also care for children attending school from the section of the city north of the Merrimack school for years to come.

We invite your careful attention to the report of the superintendent and other reports, which we feel you will find of interest.

Respectfully submitted,

HARRY H. DUDLEY,
ALICE M. NIMS,
CARRIE E. EVANS,
WILLIAM H. SAWYER,
FANNY E. MINOT,
OMAR S. SWENSON,
EDWARD C. NILES,
D. E. SULLIVAN.

Board of Education.

REPORT OF COMMITTEE ON BUILDINGS AND REPAIRS.

CONCORD, N. H., March 3, 1913.

To the Board of Education of Union School District:

We respectfully submit the following report showing how the money appropriated for repairs to school buildings has been expended; and also containing suggestions for the coming year.

The work of more than ordinary nature may be summed up as follows: A new heating and ventilating plant was installed in the Penacook building during last summer. The contractors were the Stone-Underhill Company of Boston. This has worked satisfactorily in all respects.

A new tubular boiler was installed in the Chandler school to take the place of the old one. The contractors were the Lee Brothers Company. The boiler built according to specifications required by the Fidelity and Casualty Company is one of the very best.

The Eastman school was fitted up with metal weather strips. This resulted in a decreased consumption of coal.

After deliberation it was decided to defer the installation of a new heating and ventilating plant in the Merrimack building until after the annual meeting in March.

The Bow Brook building was sold by public auction on March 16, 1912, for the sum of \$1325. In addition to this amount about \$80 was realized from the sale of old iron, etc., which had been housed there.

All the pupils' desks and chairs of the Parker and Walker schools have been repaired and refinished.

New forges, lights, and electric ventilating apparatus for the forge room were put into the Morrill Manual Training school.

We believe the interests of the North End would be subserved best by the erection of one building on the site of the Walker School sufficient to accommodate about five hundred pupils. If such a place were in operation now the current expense would be decreased annually by at least fifteen hundred dollars. This sum would pay the interest on any bond issue that would have to be made. The Merrimack building is old, ill-lighted and in many respects unsafe. The lot is not well suited for the erection of any school building the yard room being too sloping and small. The west light at all times, especially in the afternoon, is unfitted for and injurious to the eyesight of pupils closely applied to study. The cost of putting in an efficient heating and ventilating plant would amount to more than the building would bring by public auction.

The buildings of the district are in quite good repair. The interior of the new High school building should be refinished during the coming summer. This includes kalsomining the ceilings and painting the walls.

DETAILED REPORT OF REPAIRS MADE.

Cogswell School.

Concrete around the building renewed. Two new Webb fountains for basement. Ceilings of both rooms kalsomined. Bulkhead repaired. Basement floors concreted. Basement walls whitewashed.

Penacook School.

New flag-pole. New curtains for two rooms. Two new Webb fountains. New heating and ventilating system installed. New windows at head of each stairway to basement. Concrete around building renewed. Blackboards repaired. Flush tank relined.

Dewey School.

Furnaces cleaned and repaired. Outside doors varnished. Flag-pole painted. Teacher's desk refinished. Concrete

around building repaired. Tables scraped and varnished. Chimney cap repaired.

Walker School.

Furnaces cleaned and repaired. Pupils' desks and chairs in three rooms repaired and refinished, also all teachers' desks and chairs. Roof repaired.

Franklin School.

Fence repaired. Furnaces cleaned and repaired. Concrete around building repaired. Basement walls whitened. Basement floor concreted.

Kimball School.

New windows for basement. New shelves for book-room. Basement floors patched and concreted. New gutters on roof. Basement walls whitewashed.

Rumford School.

New interior for hall furnace. Water gauge repaired. New lead for feed pipe. Curtains for various rooms. Basement floors concreted. Basement walls whitened.

Merrimack School.

Ceilings repaired. Furnaces and ventilating shaft repaired. Slate on roof repaired. Flush box repaired.

Parker School.

New treads for east stairway. Pupils desks and tablet chairs refinished. Basement floors concreted. Basement walls whitened. Woodwork in lower halls and entries varnished. New tables for sewing room. East side of yard regraded. Front doors varnished two coats. New Webb drinking fountain. Manhole and trap packed. New pump for boiler.

Tahanto School.

Furnaces cleaned and repaired.

Harriet P. Dame School.

Window sash and plastering in lower hall repaired. Furnaces cleaned and repaired. Woodwork of basement painted.

Garrison School.

Teacher's desk refinished. Furnaces cleaned. Glass reset. New lights installed for night school.

Eastman School.

Furnaces cleaned and repaired. Plastering and brickwork of building repaired. Chimneys built over on outside. Chamberlin Metal Weather Strips for entire building. Doors and locks repaired.

Chandler School.

New boiler. Water pipes in basement repaired. New main water pipes from building to street. Yard regraded. Basement floors concreted.

High School.

Fence painted. Outside doors varnished. Fire-boxes to boiler repaired. Basement floors concreted. Basement walls whitewashed. New lights for one room in basement.

Morrill School.

New forges installed. New electric ventilating apparatus for forge room. New lights for different rooms.

Respectfully submitted,

OMAR S. SWENSON,
HARRY H. DUDLEY,
D. E. SULLIVAN,

Committee on Buildings and Repairs.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District:

LADIES AND GENTLEMEN:—The addition of another year to the history of the schools of this district affords me the privilege of submitting my twenty-eighth annual report, the fifty-third of its series. Inasmuch as the report of last fall is printed in this volume under Appendix I and gives essentially the condition of the regular schools at the present time, the greater part of this report will be devoted to special interests. I invite your careful reading of the matter contained in the appendices.

SCHOOL ATTENDANCE.

Thus far no problems of congested attendance have been presented that cannot be solved satisfactorily. The high school enrollment is phenomenally large, having reached six hundred forty-eight pupils during the last semester, or one hundred forty-eight more than the high school building can accommodate. The number enrolled in the four-year course is 211 per cent. more than in 1905, and 27 per cent. more than in 1910 when the reorganization scheme began. The number enrolled in the five-year course has increased 31.9 per cent. since 1910. The forecast for next September is about the same as the present enrollment.

COMPARATIVE TABLE.

	1911.	1912.	Increase.	Decrease.

MANUAL TRAINING.

The department of manual training has made steady progress in pupil enrollment as well as in the amount and quality of the work done. Methods of instruction and the details of the courses have been improved. The school has lost, by resignation, the services of Mr. Ira E. Brock and Mr. Joseph H. Barber, and by death, Mr. Edward F. Gordon. Mr. Gordon had been identified with this school from its early days and his genial manners and wholesome influence will never be forgotten by those whose good fortune it was to have known him.

The principal asks for wood turning lathes and forges in addition to those which were furnished last summer. The repair work on all machinery is done by the school. The annual exhibition was a delight and a revelation to the five hundred visitors who attended. During the year ending June 14, 1912, over 1,000 models were made by pupils from the elementary schools, and over 3,300 drawings by high school pupils. Wood-work representing over forty pieces now in process of construction includes six library tables, one Dutch-seat, five medium cupboards, five book cases, three writing desks, two large mission rockers, one large side-board and many smaller pieces. In the machine department the following are being constructed, four 12-horsepower, three 6-horsepower, and one 3-horsepower gasolene engines, the best showing ever made in this line. There are two printing presses in commission. In the first year 45,000 impressions were made, last year 110,000. The character of this work is uniformly excellent but its chief value is vocational. The district has saved some expense, but the outlay is in excess of the saving. The expense must be accounted for practically by the benefit the work brings to the students who take it and this is very

considerable. Since the beginning of the industrial classes fifty boys have been enrolled. Seventy per cent. of those leaving have adopted some mechanical vocation.

DOMESTIC ARTS.

The new course in Domestic Arts adopted by the Board of Education in June, 1912, became operative in September. It has for its object the betterment of the home. For a number of years we have had instruction in cooking and sewing fairly well organized. The technique of the work done is first-class, but outside of these two departments there has been no well-defined plan to raise the standard of the home as a whole. It is admitted on all sides that there is great need of this as evidenced by the unusual amount of attention given it from the small city to the educational department of the United States government. The course is five years in length psychologically scheduled to suit the conditions prevailing in the adolescent period. It is quite well established that the requirements of the classical course are not calculated to enable the girl of ordinary ability to get the most from her educational life that she ought, and as it may be inferred that the large number of girls in school will eventually become home makers, it is of moment to the public that they be given work which at once combines culture and utility. We confidently expect that the course now in operation will prove to be such an one. The local demand for this work is shown by the fact that in classes O and P, representing one year of school, fifty-six girls are taking it. A copy of the entire course in detail has been submitted to each member of the Board of Education. Two full years of the course are now in operation and the purpose is to add one year's requirements at a time until it is entirely in effect. Mathematics as a requirement is omitted after the first year. The course has worked well as far as it has been tried except that the classes in cooking and sewing have been too large. In one class we have tried to carry on the work in cooking with thirty-three pupils,

but it could not be done to advantage. Fifteen is a reasonable number for a class of this kind. As the course comes into operation each successive year it will require additional instructors and its success will be measured by their equipment for the work in hand. These instructors must be enthusiastic and prepared to teach the various requirements of the course, household sanitation, household mechanical appliances, housekeeping accounts, home nursing, household design and decoration, appreciation of art, appreciation of music, and the ordinary requirements in English for secondary schools. They should have a breadth of knowledge and method that will enable them to arouse and sustain an interest in the work that one possessed of mere technical knowledge would fail to bring about. Heretofore the money spent for secondary instruction has been dominated largely by academic requirements but as the secondary school has come to represent the demands of ordinary living more and more, the expenditure of money for instructors can well be guided in part by these demands. It may be of advantage for us to review what has been going on for the past ten years in regard to the different branches. Taking the number of pupils enrolled each year as a base we find the following:

The number of pupils taking Latin since 1905 has decreased	30.0%
The number of pupils taking Greek since 1905 has decreased	13.4%
The number of pupils taking Biology since 1905 has decreased	11.6%
The number of pupils taking French since 1905 has increased	18.0%
The number of pupils taking German since 1905 has increased	5.0%
The number of pupils taking Wood and Iron Work since 1905 has increased	50.3%
The number of pupils taking Sewing since 1905 has increased	13.2%

The number of pupils taking Cooking since 1905
has increased 27.9%

This tabulation shows to what extent ideas are changing, however much we may regret it, but this change is not without its great significance. It shows that more pupils are staying in school, staying longer and that the number who go to school without definite purpose is on the decrease, so that the saner adjustment of school courses will eventually result in a better education for all.

Cooking.

There are 217 pupils enrolled in the cooking classes and other branches of domestic science. Better discipline, and a more wholesome interest have been manifest than last year and the classes have been well taught. Twenty high school girls were drilled in setting tables and in serving luncheon to demonstrate cooking school methods before the Concord Woman's Club. In addition to the course requirements the classes in cooking have prepared the following: 42 quarts peaches, 57 glasses of jelly, 23 pints marmalade, 58 quarts of tomatoes, 6 quarts pickled pears, 8 quarts piccalilli. In September a special class for girls was started in the cooking school under the direction of Miss Harrington. The number, limited to six, has held its membership full and has done creditable work with the limited facilities offered. They have kept housekeeping accounts including every item of expenditure of the cooking and the industrial classes. They have made caps and towels at cost for the cooking classes; caps, aprons, night dresses, and simple dresses for themselves. Their household practice consists of sweeping, dusting, care of sink, cupboard and icebox, and washing windows. They have laundered 595 towels for the manual training school, three dozen for the high school and several dozen for the cooking school. In the second semester the time of the cooking teacher was so fully occupied as to make it necessary to have one of the senior training girls on Tuesdays, Wednesdays and Fridays.

The course is now limited to one year. If it is to be lengthened into a two years' course more convenient quarters and an additional teacher much be furnished. In the central part of the city no other room is available for this work.

Sewing.

The most noteworthy changes in this department have been the giving up of some seemingly useless work in models and devoting more attention to the construction of useful articles. The requirements of the domestic arts course are of great practical value. In the first year classes M and N, 127 girls are at work making undergarments. In the high school Group I, and Group II (Parker School), 74 girls are cutting and making garments. In the elementary schools 333 girls are constructing models. Many requests come from those who wish to work beyond the regular hours but the time is all taken and the instructors cannot grant them. Miss Stevens having been given a year's leave of absence Mrs. Parsons, a former teacher in this school, was employed in her place. Miss Mildred Phillips is also employed forenoons. The school has been furnished with new chairs, a new cutting table, a stand for hanging skirts, four new sewing tables, and an additional sewing machine.

DRAWING.

Although the attention given drawing in the elementary schools has been much less than heretofore, the work has been done as well as any supervisor could do it with such a handicap. It seems to have outgrown the possibility of being taught by one person. The time for the high school pupils has been taken from the elementary schools. Last year visits to these schools were made by the supervisor once in every four weeks. This was not a sufficient amount of attention, but this year the intervals have been increased to six weeks. Six visits a year by the supervisor cannot give regular teachers enough help. Next year with the addition of two new classes in the high school, this school

must have at least twenty-one out of thirty periods a week making it impossible to allow more than one visit every eight weeks to the elementary schools. The only solution seems to be the employment of an assistant at a nominal sum to do at least a part of the elementary work under the direction of the supervisor. The results in drawing for the past few years have been more than satisfactory and should be kept up to the standard.

THE DEWEY TRAINING SCHOOL.

This institution is of great value to the district because it enables us to have the services of trained teachers who are acquainted with our course of study, who have a personal and a professional interest in its success, and are not so liable to be called away to other cities, home interests keeping them here. These young women are trained carefully, conscientiously and with rare judgment. They begin to teach, serious minded, as a professional should be and generally grow in strength as time goes on. During their period of training they render the district valuable aid in the various schools by helping deficient and backward pupils. They are assigned to those buildings that do not have the assistance of a special teacher and their service causes no expense to the district save that of their training. Valued in dollars and cents for the time given and based upon the average salary of special teachers they are saving the district at least twelve hundred dollars a year in extra help. This is more than it costs to maintain the training school. The regular schools in this building are models as they should be. A Victor machine was kindly furnished by the committee for use in marching and in calisthenics. A class in Bancroft's Physical Drill gave an exercise before the Merrimack Valley Teachers' Association this winter showing to what perfection such work can be brought.

MUSIC.

The demands upon the time of Mr. Conant by the domestic arts course has caused a change in the schedule for the elementary schools. The special work in this course began in September with thirty-three pupils. Twenty-nine finished the work of class O and twenty-seven entered class O in January. The pupils are interested and make steady progress. The supervisor credits the Parker school and the High school with unusual interest. In the former there is fine singing, a good orchestra and special "musical hours." In the high school chorus there are 215 pupils, the largest in the history of the school. The orchestra is composed of eleven pieces, and the double quartette of mixed voices is the best that I have ever heard from any school. Their efforts, in the Merrimack Valley Teachers' Association and before the Concord Woman's Club, merited general praise. The instructor sees advancement along all lines but shows his progressive spirit by saying that it should be better. I believe it would be very difficult to duplicate the training which pupils are receiving in music.

NIGHT SCHOOLS.

Even though extraordinary efforts were made to secure an increased enrollment for the night schools in the city proper, only two rooms were opened to accommodate a smaller number than last year. For this I have been unable to assign any satisfactory cause. The limited number whose attendance was regular made quite rapid progress in learning to read and talk the English language. A longer term would have been welcomed by these people, but the meager attendance would not warrant the expense of continuing it.

During the fall term a request was made by residents of West Concord for a night school there. This was begun November 18, 1912, and continued for nine weeks. The total enrollment here was 49, 38 males and 11 females. Of

this number 18 were Swedes, 29 Finlanders, 1 Norwegian, 1 Spaniard.

HEALTH IN THE SCHOOLS.

The good health of the pupils and the instructors is of concern to the public, who seem alive to needful measures for its protection. The Board of Education is not neglectful of this phase of public school work. Through the care of the sub-committee on hygiene extraordinary efforts have been made to observe methods of improving the sanitary conditions of the schools. We have modern methods of heating and ventilating the buildings, sanitary drinking fountains, individual pencils, paper towels, adjustable furniture, oiled floors, the proper use of disinfectants, the fumigation of school books and supplies, liquid soap, regular exercises in calisthenics, and the valuable services of a school nurse. It seems as if the germs of contagious disease would give up their warfare in the face of this formidable array of preventives; on the contrary, only the strict vigilance of all will protect the pupils from increasing danger. Sometime it will dawn upon the people that medical inspection is as needful for the pupils here as it is in other cities and let us hope that it will not take a serious epidemic and the consequent loss of life to bring this about.

Quite determined efforts have been made to induce the parents to coöperate with the teachers in making children observe proper changes in clothing before entering the school room and upon leaving it. Attempts have been made also to keep the schoolrooms at a lower and more even temperature. These have aroused some opposition, but it was almost always the result of a misunderstanding of the nature of the orders given, for when they were explained and the motive behind them made known the reasonable side of the matter seldom failed to carry conviction. I think I may, with propriety, in connection with this topic, call your attention to the loss of health and the failure to do school work by those children who are unfortunate in the use of tobacco. Investigation made recently in one western high school reveals the following facts: Twenty-seven boys who never smoked averaged 84.5 per cent. in

their studies. Fifty-five habitual smokers in school averaged 76 per cent. Forty-five habitual smokers who had left school recently averaged 69 per cent. No doubt, that during the period of adolescence when the nervous and physical organism of children is undergoing a critical change, this use of tobacco manifests itself in a loss of moral, mental and physical tone resulting in discouragement and the giving up of school life. The report of Miss Murphy, the school nurse, may be found in Appendix I.

WASTE OF SCHOOL TIME.

The misuse of the five hours of school time allotted to the pupil daily means the waste of public school revenue to a like degree. This waste may be charged up in part to lax discipline, absence of rational methods in teaching, faulty arrangement of the school program, and bad apportionment of the work.

A healthy discipline carries with it a respect for persons in authority, polite manners on all occasions, and a wholesome school spirit. Such a discipline breeds little discontent, wrangling, scolding, sarcastic remarks, absence from school, tardiness, and does not subordinate exacting work to social pleasures. If these several things obtain in any school it is at the expense of the continuous waste of school money. In time gone by such things as enumerated above have been passed over too lightly as being necessary evils that attach themselves to the administration of school affairs. If by analogy, we carried such judgment to the affairs of professional or business life the percentage of failures would be increased to great proportions. It is likely that this waste caused by lax discipline can never be even reasonably computed, but estimate alone should cause serious thought to be given to it.

A study of rational methods in teaching should be a requirement for a teacher of any grade. For a number of years the elementary teachers and those of the first two years of the high school have met in groups for this

purpose with gratifying results shown in a more reasonable discipline, more rational teaching, a more fraternal spirit between pupil and teacher, and a school atmosphere clarified by the giving up of the educational bigotry which distinguished the old time pedagogue. The following table will give some idea of the extent of this work.

School.	No. meetings for the study of pedagogy.	No. works on pedagogy stud- ied and read.	No. periodicals read.
High,	0	32	73
Parker,	29	43	13
Chandler,	29	21	5

It may be of value to note the recent offering of \$1,250,000 by Andrew Carnegie for the advancement of teaching. This is called "The Carnegie Foundation for the Advancement of Teaching." Of the income, \$60,000 is to be devoted to finding the best known ways of teaching and in experimenting to find still better ways. I beg leave to direct your attention to the useless waste of time by boys and girls of the Manual Arts and Domestic Arts classes in going and coming from their lessons. Assuming that on the average each pupil uses ten minutes each way, in a week he wastes $1\frac{2}{3}$ hours, in a year 63 hours or two and a half weeks of school time. Each girl for two lessons a week loses just two fifths of that time. During the last

semester this loss has been decreased by allowing boys of the Parker school to go directly to the Morrill school in the morning four days of the week but such an arrangement could not be made for the girls. I recommend that the cooking school of the Chandler building be moved to the high school and another smaller equipment be furnished the Parker school. This would save the girls of the two largest buildings practically all the loss of time now experienced. It is quite possible that some better arrangement may be made for sewing to avoid a similar loss. Much scientific thought is now being directed toward the elimination of time waste in the school life of the child. It has been conclusively demonstrated that private instructors can save from three to five years of the ordinary school time and it is fair to suppose that even in the public school, where mass instruction is a necessity, at least a fraction of the time may be saved. In the last twenty-eight years the time of doing public school work in this city has been reduced from fifteen years to eleven. In the country at large from fourteen to twelve. The next twenty-five years may bring about still further reduction by the elimination of all duplication and by scientific management in general.

KINDERGARTENS.

The attendance in the kindergartens has been appreciably larger than last year. They have been conducted on about the same plan as heretofore with results to correspond. In the Garrison and the Tahanto schools the scheme of having no regular assistant has been continued. Should a commodious building be erected on the Walker school lot one large kindergarten would be located here with accommodations for the northern part of the city. The supervisor has held the usual number of teachers' meetings and also has given instruction to one young woman studying for the profession.

NOTES OF THE YEAR.

Washington's Birthday and Memorial Day were observed by the schools as usual.

Health Day was observed in all the schools by special exercises, and the following people kindly offered their valuable services:

High School—Dr. H. H. Amsden.

Parker School—Dr. Marion L. Bugbee.

Chandler School—Dr. C. R. Metcalf.

Rumford School—Mrs. J. M. Fontaine.

Tahanto, Garrison, Dewey Schools—Miss E. M. Murphy, school nurse.

Merrimack School—Dr. C. M. Duncan.

Walker School—Mr. W. T. Purrington.

An exhibition of kindergarten plays, folk lore games, and physical drill was given by the consolidated kindergartens, and the pupils of the Rumford, Kimball, Merrimack and Dewey schools, at White's Park, on Tuesday, June 11, 1912, at two o'clock p. m. Over two thousand people assembled to see them. The affair reflected great credit upon the teachers and pupils who took part.

The annual exhibition of manual training, sewing, cooking and drawing showed the same proficiency as in former years.

The usual observances of parents' days have taken place.

The first parents' night at the Morrill School of Mechanic Arts was held on Thursday, February 27, 1913, at the building. Unfortunately the weather was rainy and kept away many who otherwise would have come; notwithstanding, the attendance was large and appreciative.

On the afternoon of Friday, February 28, 1913, the girls of the high school domestic arts classes and the industrial class of the Chandler school representing the cooking school taught by Miss Harrington served a luncheon to the members of the Concord Woman's Club at their rooms in the Parish Memorial House. The place-cards and the bon bon boxes were made and decorated by

pupils of the drawing classes under the direction of Miss Stalker. The menus were printed by the pupils of the Morrill School of Mechanic Arts, Mr. French instructor. The affair was very successful.

Many teachers have been called from the schools of this district to other places. The loss of efficient teachers at any time is serious enough, but occurring as it often does in the working period of the school year the change becomes doubly disastrous to the efficiency of the schools. Many places evidently do not allow this variation of contracts. Other positions made more attractive by larger salaries and extended privileges have called away the following teachers during the year.

High School—Miss Helen L. Brown, Miss Grace V. Knowles, Mr. Harold C. Bales, Mr. Walter L. Barnum.

The design on the cover of this report, and that on the title page were drawn by Miss Edith Hardy and Miss Madeline Gibbs, respectively, of the high school.

Those of the 1912 report by Miss Ethel Watson and Miss Edith Marden.

CONCLUSION.

The mission of a school report would be but half accomplished if it rested with the enumeration of a year's events. Its broader field lies in calling attention to the constructive forces which are to determine the future progress of education. The popular conception of education in the past has been determined by the measure of book knowledge, but the present is asking and the future will persist in asking, Are public school pupils healthy? Are they socially pure? Are they obedient? Are they respectful? Are they studious?

The past has been content to ask of the teachers, that they be well equipped for the subjects which they are to teach. The present is beginning to ask and the future will persist in asking in addition, Have they rational methods in teaching? Have they habits to strengthen their

pupils by example? Do they give proper attention to the individual pupil? Do they have a proper interest in the general uplift of the community where they work? All these questions vitally concern national life and civic welfare.

The trend of constructive education takes form in the following things: Agriculture, vocational subjects, the public use of school grounds and buildings, pensions for teachers, normal training for teachers, state certification of teachers, continuation schools, compulsory school attendance, technical and industrial education for elementary grades, textile schools, etc.

There is a growing movement for a six-hour day for secondary schools, also a strong tendency to reorganize school systems upon the three-group plan similar to the one in operation here but varying somewhat in detail according to the local needs.

There is more or less talk of a university devoted to the training of students for the profession of teaching, and already sixteen or more colleges and universities have instituted departments of education allowing credit toward an A.B. degree for proficiency in the study of pedagogy.

The prevailing system of marking by points is being mercilessly assailed and it ought to be. This in connection with the abuse of the option privilege is out of temper with the American youth in that it sets a false standard by the substitution of *driving* for *true teaching*, by creating an improper attitude toward study, and by subordinating *mastery of a subject* to the *attainment of a passing mark*. Those who defend such a system would do well to read Milton's "Letter on Education."

The character of the work done in our schools is worthy of the sanction of all. Its favorable review in different parts of the country, the confirmation of its efficiency by adoption of methods in use here, and its commendation by noted educators in many different localities are all of more than passing moment to the city. The consciousness of this, however, should not cause us to become satisfied

with prevailing conditions to the exclusion of attempts to improve nor to allow the horizon line of the broader education to grow dim; rather should it result in expansion regulated by the conservative application of our financial resources.

Constantly reminded of my obligations to you the Board of Education, to the loyalty and efficient work of a noble corps of teachers, and to a patient, appreciative public, I hope the repose of such confidence in me may be partly justified by my devotion to the interests of Concord's schools.

Respectfully submitted,

L. J. RUNDLETT.

APPENDIX I.

APPENDIX I.

CONCORD, N. H., September 26, 1912.

To the Board of Education of Union School District:

I am submitting for your consideration the second annual report of the reorganization scheme put into practice two years ago.

FINANCIAL.

While a financial statement of this kind must involve some estimates, there is enough that is definite, however, to give it positive value. To enlarge the high school building would have required an additional bond issue of at least \$30,000. The interest on this sum at $3\frac{1}{2}$ per cent. would have amounted to \$1,050 a year. From reliable estimates, tabulations of which have been sent to the committee from time to time, the district has been saved a current expense of at least \$5,000 during the two years, and we have been enabled to discontinue two rooms which, at the maximum salary, would have amounted to \$1,300.

The scheme allows us to charge full high school tuition for one year more than under the old plan. In two years this has amounted to \$459. The doing away with graduations has saved the parents a sum of money which must be arrived at largely by estimate. Basing this upon the testimony of teachers, business men, parents, and pupils I have no doubt that the saving in two years has amounted to at least two thousand dollars, fourteen hundred of which could be charged up to high school graduations.

There are other small miscellaneous expenses for which I have given no estimate. Summing up the above we find the following:

Bond issue	\$30,000
Interest on same two years at $3\frac{1}{2}$ per cent.	2,100
Current expense	3,000
Rooms discontinued (salaries alone)	1,300
Additional tuition	459
Graduation expenses	2,000
	<hr/>
Total	\$38,859

The average cost per pupil for the teaching force alone has been materially reduced during the last two years as may be seen from the following table:

	High School.	Elementary Schools.	Average.
1909-1910—(Old Plan)*	\$33.14	\$14.76	\$23.95
1910-1911—(New Plan)	29.28	15.80	22.54
1911-1912—(New Plan)	26.47	14.09	20.28

Decrease in the average cost per pupil \$3.67.

The net increase in tuition receipts is shown in the following:

Year.	High School.	Elementary Schools.
1909-1910	\$1,577.39	\$576.66
1910-1911	1,863.37	453.97
1911-1912	2,301.31	454.90
Increase in two years	723.92	
Decrease in two years		\$121.76
Net increase in two years . . .	\$602.16	

Of this increase \$439 may be set down as additional revenue from the increase of \$27 per pupil in the additional year of the high school course.

TEACHERS.

The teaching force has improved in equipment because the high school curricula call for more than ordinary preparation.

* (This year, high school four years and elementary schools eight years.)

A college degree is required of all teachers in the four highest years except those who were certified for the freshman class by the state. Hereafter a college degree with experience in the grades, or grade experience with extended study should be made requirements for those who seek positions in the first year of the high school. During the past summer vacation three teachers from Concord have taken courses in as many different summer schools, connected with leading colleges and universities.

WORK OF THE SCHOOLS.

High School—Group 1.

Classes Q, R, S, T, U, V.

The number of pupils reported at the end of the year was 300.

The number of these attaining a mark of A— or better was 14.

The number of these attaining a mark of B— or better was 158.

The per cent. of the whole number attaining A— or better was 4.66.

The per cent. of the whole number attaining B— or better was 52.66.

The number not promoted was 2.34 per cent. less than in 1910 and 1.94 per cent. less than in 1911.

The number leaving school was $1\frac{1}{2}$ per cent. less than in 1910 and 3 3-5 per cent. larger than in 1911.

The number of A— pupils, while showing a gratifying gain, still lacks 4 per cent. of reaching the standard of "ten per cent. of the number enrolled."

This standard is not arbitrary, many educators placing it much higher. The number of B— pupils showed a remarkable increase and is 2.66 per cent. above the standard of "fifty per cent. of the number enrolled."

THE SOPHOMORE CLASS.

Much interest attaches to the results attained by this class because it was the first one of its kind under the new scheme and because it was the best prepared freshman class that has ever come within my experience. While it did not maintain its freshman standard, and this was not expected, nevertheless it did show strength by comparison and confirmed the impression that the more modern ways of conducting recitations are quite superior to those which have held sway for half a century and are now slowly falling into disuse. This is particularly manifest in the all important matter of arousing an interest in school work which in itself means advancement.

Comparing the yearly record of this class with those of the past fifteen years we find the following:

1897—78.80%	1905—79.10%
1898—73.72	1906—77.50
1899—70.49	1907—74.72
1900—68.95	1908—77.86
1901—71.19	1909—77.26
1902—73.00	1910—75.27
1903—72.42	1911—76.29
1904—72.18	1912—76.70

The general average of the classes for fifteen years is 74.33 per cent., so that the 1912 class stood 2.37 per cent. higher than this average.

That this class had ability and interest may be shown by the fact that for the first two periods it averaged 80.63 per cent., while after twenty-eight weeks of high school work it dropped to 78.52 per cent.

Class average for the first five weeks was	77.17%
Class average for the second five weeks was	84.10
Class average for the third five weeks was	78.46
Class average for the fourth five weeks was	77.26

Class average for the fifth five weeks was 78.67%
 Class average for the sixth five weeks was 78.37

Consulting the following table we find that the class stood high in the following studies: Latin, Greek, Geometry, Biology, Commercial Arithmetic, Drawing, Manual Training, Cooking, and Sewing.

The marks in English, French, and History were not good. It is quite possible that much better work could have been done in these studies.

Class average in Latin for the first six periods . . .	80.54%
Class average in English for the first six periods . .	74.97
Class average in Greek for the first six periods . . .	77.49
Class average in French for the first six periods . .	74.80
Class average in History for the first six periods . .	66.94
Class average in Geometry for the first six periods . .	77.43
Class average in Biology for the first six periods . .	85.38
Class average in Commercial Arithmetic for the first six periods	85.17
Class average in Drawing for the first six periods . .	82.05
Class average in Manual Training for the first six periods	81.17
Class average in Cooking for the first six periods . . .	83.85
Class average in Sewing for the first six periods . . .	85.30

In Latin the number of failures (0) was 7.54 per cent. less than in 1910 and 8.67 per cent. less than in 1911.

In English the number of failures (2) was 19-100 per cent. larger than in 1910 and 1.86 per cent. less than in 1911.

In Geometry the number of failures (10) was 4.31 per cent. less than in 1910 and 13.56 per cent. less than in 1911.

In French the number of failures (24) was 10.4 per cent. larger than in 1910 and 6.36 per cent. larger than in 1911.

In Commercial Arithmetic the number of failures (2) was 5.68 per cent. less than in 1910 and 21.61 per cent. less than in 1911.

Latin.

This was the first class to take sophomore Latin after a year and a half of instruction under the "Morrison Method." It would seem that the class was well fitted when we consider that the classes immediately preceding had been handled by a teacher who had specialized in this subject and was widely experienced. The average of the class for the first two periods was 81.22 per cent. For the last two periods it was 79.74 per cent. A poorly fitted class would show a reversal. The per cent. of failures was $7\frac{1}{2}$ per cent. less than in the class of 1910. The average per cent. of sophomore classes since 1907 has been 80.6 per cent. The average of this year's class was 79.3 per cent. In this year's class no failures were reported. There is no doubt that its former standing would have maintained if the method of last year had been employed.

Other classes read the four books of Cæsar's Gallic War, approximately one third being sight reading.

This class read the following:

Sight Reading: two thirds of Nepos, one half of Ovid, and many selections from Cicero, Rufus, and Cæsar.

Studied Reading: Nepos—Selected Lives of Great Men.
Ovid—Four Ages and the Flood, Pyramus and Thisbe, Philemon and Baucis, Orpheus and Eurydice, The Story of Midas, Apollo and Daphne.

Compared with Freshman Record.

The number who exceeded the freshman standing was 9.

The number who equalled the freshman standing was 14.

The number who fell below the freshman standing was 89.

The number who came reasonably near the freshman standing was 58.

The number who fell unreasonably below the freshman standing was 31.

In the 1911 class there were no A— pupils, in this class five.

In the 1911 class there were twenty-four B— pupils, in this class forty-seven.

As a general conclusion we may safely say that the class was one of unusual power and attainments. While its sophomore record was creditable, its ability was not realized nor its former interest in school work maintained. It may be of value also to note the instances of those who have entered other secondary and preparatory institutions from this class and maintained their freshman standing in the sophomore year.

*High School—Group 2**(Parker School)*

The amount of work done in this school measures up well with that of last year in character and amount. The per cent. of A— pupils was not as large, one class being abnormally slow; however, it exceeds the standard of ten per cent. of the number enrolled by 3.79 per cent. The per cent. of B— pupils was materially larger than last year and exceeds the standard by 18.53 per cent., a record achieved in the face of many adverse conditions.

All the various activities have been carried on as usual and the proper amount of interest in school work has been shown.

COMPARATIVE TABLE.

Classes.	1910.					1911.					1912.				
	No. pupils.	A-.	B-.	Failed.	Left school.	No. pupils.	A-.	B-.	Failed.	Left school.	No. pupils.	A-.	B-.	Failed.	Left school.
O, P.	143	3	39	17	28	185	31	68	13	22	232	32	127	14	16

From this table it may be seen that the 1912 class shows superiority in every department.

Studies.	1910.				1911.				1912.

(*1910-1911 Algebra.)

(*1913-Myers' First Year in Mathematics for Secondary School.)

(**Two subjects taken as one.)

FRESHMAN CLASSES.

The class of 1912 compared with those of 1910 and 1911.

In Mathematics the number of failures (5) was 20.22 per cent. less than in 1910 and 4.62 per cent. less than in 1911.

In Ancient History the number of failures (1) was 7.13 per cent. less than in 1910 and 5.34 per cent. less than in 1911.

In English the number of failures (2) was 5.93 per cent. less than in 1910 and 7.75 per cent. less than in 1911.

In Latin the number of failures (3) was 1.52 per cent. more than in 1910 and 8.33 per cent. more than in 1911.

In Commercial History and Geography the number of failures (0) was 5.12 per cent. less than in 1910 and 16.66 per cent. less than in 1911.

In everything but Latin the showing in one of unquestioned progress. Compared with the 1910 class, the last one under the old method, it shows to good advantage. Compared with the 1911 class it does not show up well because the 1911 class was unusually bright and the 1912 class very much below the average.

Group 2.

(Eastman, Garrison, Walker, Kimball, Chandler and Rumford Schools.)

These schools have been conducted upon the same lines as last year but have not held up to the standard. Compared with the class of 1911 we find that the number of A- pupils dropped 4.41 per cent. yet was 35-100 per cent. above the standard. The number of B- pupils dropped 10.87 per cent. and lacked 12.55 per cent. of reaching the standard. From the following table one may see where the difference occurred.

School.	Per cent. A—Pupils.				Per cent. B—Pupils.			
	1911.	1912.	Increase.	Decrease.	1911.	1912.	Increase.	Decrease.
Garrison.	36.3	12.5	23.8	72.7	62.5	10.2
Kimball.	13.8	5.1	8.7	44.4	17.3	27.1
Rumford.	4.3	5.7	1.4	39.1	20.	19.1
Eastman.	0.	10.5	10.5	20.	15.8	4.2
Walker.	22.2	13.0	9.2	50.	65.2	15.2
Chandler.	7.4	12.3	4.9	45.7	44.89
Merrimack.	26.3*	57.8*
Average.	14.76	10.35	4.71	48.32	37.45	10.87

(*No school here 1912.)

The showing may be due to several causes probably largely to abnormally dull pupils centering in these classes and in some cases the pupils were not well fitted when they entered class M.

The decrease in the number of B— pupils is of more concern than the decrease of A— pupils. These schools have been conducted without friction and a healthy interest has been manifest. The Latin classes were finely fitted and individual help was given in all needful cases. There were no breaches in discipline reported during the year.

In General.

As a general proposition the scheme has surpassed expectations. Improvements in some of the groups have more than balanced failures in others. More children are taking the high school course than ever before, due in no small degree, to the fact that under this plan many are compelled by law to take the two first years of high school course before going to work. This may be seen from the following table.

GROWTH OF HIGH SCHOOL.

Year.	Total enrollment all schools.	Total enrollment high school.	Total enrollment high school, old plan.	Per cent. of en- rollment high school †	Per cent. of en- rollment high school †
1912-'13.....	2,619	805	557	30.73	21.26
1911-'12.....	2,574	777	482	30.18	18.72
1910-'11.....	2,573	652	494	25.34	19.20
1909-'10.....	2,602	668*	458	25.67	17.60
1908-'09.....	2,638	651*	433	24.67	16.60
1907-'08.....	2,715	470*	372	17.31	13.70
1906-'07.....	2,705	546*	347	20.19	12.82
1905-'06.....	2,612	452*	323	17.30	12.36
1904-'05.....	2,461	337*	209	13.69	8.49

*In the years preceding 1910-'11 this number is made up of high school four years and grade eight of the elementary course.

†(Equal per cent. of pupils based on total enrollment.

Since 1910-1911 the increase has been 63 pupils in the old four-year high school and 153 in the five-year plan.

As all of the newer branches such as commercial studies and manual training were in force before that time it is fair to suppose that a per cent. of the increase is due to regrading. There is little prospect of the high school building being large enough to accommodate the four highest yearly classes for some time, perhaps never, in its present form and the efforts of all should be directed with force toward bringing about the least possible break in the transition of pupils from one grade to another especially if they change buildings at the same time. The methods used should not only vary as little as possible but they should be in accord with the ideas which the best pedagogical thought has brought out in the last few years. The amount devoted to educational purposes by the district is large and its expenditure should call forth unity of effort from all who benefit by it.

Respectfully submitted,
L. J. RUNDLETT,
Superintendent.

REPORT OF SCHOOL NURSE.

Superintendent L. J. Rundlett:

DEAR SIR,—I beg leave to submit for your approval my third annual report. Few branches of work offer such opportunities for usefulness as that of the public school nurse. Much has been accomplished in the past year but we have not attained the maximum. The many instances of change that give one courage, the interest and appreciation of parents are gratifying. The physicians have rendered valuable support and cordial coöperation. There are no free clinics in our city but skilled physicians have given their services when requested. The hospitals also give care and treatment free. Parents pay for service when they can but no one is denied care. Children whose parents could not attend to treatment have been taken to physicians and hospitals and their treatment supervised. The most valuable work of a school nurse is in following the child to the home to explain the trouble to the parent and see that proper treatment is given. These visits take a great deal of time and become delicate and difficult tasks because one must be persistent to be successful. Medical inspection is our greatest need and it could be had with but little expense.

I most gratefully acknowledge the kindness and financial aid of many who have helped make this work a success. Let us remember that anything which tends to raise the physical standard of the human being raises the standard of citizenship in our nation.

School Nurse.

OUTLINE OF DOMESTIC ARTS COURSE.

Course V.

FIRST YEAR OF COURSE, SEVENTH YEAR OF SCHOOL.

English 5 periods, Arithmetic and Algebra (5), English Grammar and Composition (5), United States History (5), Domestic Arts, Music, Art (4).

Music.

Signature, Clefs, Four-part singing, Minor Scale, Chorus Work.

Art.

Portfolio Construction, Lettering, Applied Design, Pose Drawing, Theory of Color, Still Life, Landscapes.

Sewing.

Machines, Textile Study, Materials, Drafting, Cutting and Fitting, Night Dresses, Skirts, Hygiene.

Cooking.

Elementary Chemistry, Stoves, Preparation of Foods, Cooking Exercises.

SECOND YEAR OF COURSE, EIGHTH YEAR IN SCHOOL.

English (5), French (5), Music and Art (5), Domestic Arts (5).

Music.

Musical Theory, Psalmization, Music Writing, Melody Writing.

Art.

Theory of Color, Elementary Design, Embroidery Design, Millinery and Garment Design, Nature Work, Color Harmonies, History and Appreciation of Art.

Sewing.

Design, Textile Study, Materials, Cutting and Fitting.

Cooking.

Cooking Appliances, The Dining Room, Study of Food Stuffs, Cooking Processes, Cooking Exercises.

THIRD YEAR OF COURSE, NINTH YEAR OF SCHOOL.

English (5), French or German (5), Music and Art (5), Domestic Arts (5).

Music.

Melody Writing, Part Writing, Harmony, Music for the Home.

Art.

Embroidery Design, Dress Design, Millinery, Color Harmony, History and Appreciation of Art.

Sewing.

Design, Textile Study, Materials, Cutting and Fitting, Millinery.

Household Mechanical Appliances.

Heating Appliances, Fuels, Plumbing, Lighting Power in the Household.

Household Sanitation.

Bacteriology, Ventilation, Water Supply, Food Supply, Drugs and Medicine, Disposal of Refuse, Personal Hygiene, Study of House and Furniture.

FOURTH YEAR OF COURSE, TENTH YEAR IN SCHOOL.

English (5), French or German (5), Music and Art (5), Domestic Art (5).

Music.

History of Music, Folk Songs, Musical Schools, Musical Instruments, Phonographic Reproduction, Songs of Different Countries.

Art.

Color and Composition, Artistic Anatomy, Decoration and Design, History and Appreciation of Art.

Physiology and Hygiene.

Scientific Physiology, Hygiene and Sanitation.

Home Nursing.

Surgical Cleanliness, Emergencies, Minor Injuries, Beds, Temperature, Pulse, Respiration, Baths, Enemata, External Applications, Nursing Children and the Aged, Invalid Cooking.

FIFTH YEAR OF COURSE, ELEVENTH YEAR IN SCHOOL.

English (5), French or German (5), Music and Art (5), Domestic Art (5).

Music.

Musical History, Monophony, The Opera, The Oratorio, Supplementary Course in Applied Music.

Art.

Mechanical Drawing, The House, construction, installation, materials, architecture, doors, windows etc., furniture, carpet, rugs and other accessories.

Cooking—(Analytic).

Review of processes and practice in cooking, Food Constituents, Food Relation, Bacteriology of Foods, Nutrition, Simple Foods, Food Costs, Invalid Cooking.

Housekeeping Accounts.

Book-keeping, Marketing, Clothing, Furniture, Fuel, Miscellaneous Purchases.

COURSE FOR INDUSTRIAL CLASS.

GIRLS.

Mathematics.

Reading numbers. Writing numbers.
The four fundamental operations.
Fractions, common and decimal.
Calculating cost of materials.
Purchase of materials.
Household Accounts—method of keeping.
Bank Account—method of keeping.

English.

ORAL.

Correcting common errors in speech.
How to ask questions properly.
How to answer questions properly.
Correct use of vocal organs in speaking.

WRITTEN.

The direct statement.
Common errors, corrected.
Essays—Three each semester.
Notes of all lessons—accuracy, neatness, legibility.
Correct letter-writing.

Penmanship.

Taught in connection with all written work.

Spelling.

Prepared list of common words.

Cooking.

- The Kitchen—Furniture and care of.
- The Laundry—How to prepare clothes for the wash.
 - How to wash clothes properly.
- Water—Kinds.
 - How to make hard water soft.
- Washing and Ironing.
 - Plain clothes.
 - Fancy clothes.

Sewing.

- Simple hand work.
- Underwear.
- Wash dresses for children.
- Wash dresses for adults.
- Shirt Waists—plain.
- Power Operation—simple.
- Dressmaking—simple.

In General.

- Make school aprons and caps.
- Make and repair kitchen articles.
- Make clothes for poor children.
- Articles for schools in general, etc
- Launder towels for manual training.
- Keep kitchen clean at all times.
- Can fruit for outsiders.
- Make preserves for outsiders.
- Iron models for sewing classes, etc..
- Make work bags.
- Launder kitchen articles.
- Method of re-binding books.
- Repair school flags.
- Make towels for manual training.
- Prepare lunches for Chandler School pupils.
- Prepare lunches (limited) for conventions.

APPENDIX II.

TABLE OF ATTENDANCE FOR THE YEAR JUNE 14, 1912.

SCHOOLS.	Length of school in weeks of five days.	Aggregate number of days lost by reason of holidays, bad weather, etc.	Whole number of different pupils		Average daily attendance.	Average daily absence.	Average membership.	Per cent. of attendance (based on average membership).	Number of cases of tardiness.	Average number of tardinesses to a pupil.	Whole number of different pupils under five years of age.	Whole number of different pupils between five and sixteen years.	Whole number of different pupils over sixteen years.	Whole number of different pupils between five and eight years.	Whole number of different pupils between eight and fourteen years.	Number of visits by the superintendent.	Number of visits by the school board.	Number of visits by parents, citizens and others.	Number of cases of corporal punishment.	Number of square feet of blackboard surface in your room.	Number of tardy pupils during the year.

Joseph L. Champigny, Ruth Mahoney, Leona S. Savoy, Philip O. Parenteau, Margaret Robinson, Allen Hillsgrove, Everett L. Gagnon, Thomas Fleming, Oscar Drew.

GRADE IV.

Harry Anderson, Emma Boulay, Nathalce McDonnell, Dorothy Robinson, Ellen Grant.

GRADE V.

Mary Champigny, Charles Foote, Edith Giddis, Walter Plummer, Edwin Robinson, Lily Rowland, Arthur Stiekney, Harold Welch.

CLASS L.

Edward Blanchette, Franklin Goodsell, Ida King, John Richardson.

DEWEY SCHOOL.

CLASS F.

Sally Clement, Charles Gannon, Margaret A. Gordon, Franklin Hollis, Albert King, Zelia King, John A. Morrison, Phillips W. Vose, Dorothy E. Watson.

CLASS H.

Harriett I. Albee, Aubrey M. Brown, M. Phyllis Carpenter, Dorothy M. Clark, John P. Murphy, Nellie M. Riford, Eric M. N. Sandquist, Theodore M. Stewart, Madeline Vose, Margaret H. Wall, Raymond D. Moore.

CLASS I.

Ethel M. Nudd, John L. Peckham.

CLASS J.

Francis Crowley, C. Parker Huntington, Ruth H. Kibby, Cornelia H. Kimball, Grace M. Patch, Mary A. Shannon, Altha E. Walker, E. Follis Wall.

FRANKLIN SCHOOL.

CLASS E.

Martha D. Persons, Clifton R. Wilcox, Jennie Ford, Richard Van De Mark, Philip E. Stohrer, L. Evelyn Parker, Richard H. Felton.

CLASS F.

Marion Davis, Eunice M. Haven, Eva M. Sanborn, Dorothy M. Scott, Robert G. Tucker, Walter W. Waterhouse.

CLASS G.

Earl J. Brunelle, Rhoda K. Reilly, Edna M. Smith, Walter H. Stanley, Doris D. Wilkins.

CLASS H.

Katherine E. Crabbe, Arthur Ledward, Ruth Leavitt, Helen D. Morrison, Hige Najarian, Mary A. Otis, Myrtle G. Osgood, Mildred A. Patterson, Krekor Shaterian, Helen F. Wall, Edith L. Ford, Thomas Kent.

PENACOOK SCHOOL.

CLASS E.

Olive Hartford.

CLASS F.

Orrin Beane, Weltha Belrose, Melvin Cohen, Helen Curran, Stewart Lyford, Lillian Randquist, Ruth Virgin, Leila Young.

CLASS G.

Florida Bean, Gordon Bartlett, Edward Cousins, Carl Harris, Harry Levin, Eugene Maxam.

CLASS H.

Ruth Lyford, Annie Wilson.

CLASS I.

Ruth Cofran, Majel Evans, Emma Jones, Dorothy Kendall, Marion Skillen, Frances Wason.

CLASS J.

Doris Akeley, Edward Cofran, Madaleine Curran, Beatrice Douglas, E. Irene Lord.

MERRIMACK SCHOOL.

CLASS K.

Helen Bailey, Charlotte Cheney, Gladys Evans, Henry Anderson, Ellen Lamprey, Marjorie Newbold, Angelina Oligati, Marion Cochran, Oren Peters, Frank Stohrer.

CLASS L.

William Angwin, Marion Baster, Emily Brunell, Harold Fraser, Eveline Haven, Esther Holmgren, Ross Lovejoy, Ida Larson, Esquion Najarian, Elizabeth McBain, Elizabeth Sorranty, Clara Smith, Helen Tebeau.

KIMBALL SCHOOL.

CLASS E.

Grace M. Spaulding, Janice Griffin, Frank E. Bagnall, George S. Copp, Nettie M. Jewell, Andrew F. Pike.

CLASS F.

Emma J. Cox, Elizabeth Morrill, Edmund A. Laport, Philip Garland, George C. Kimball, Edmund A. Cox, May Smith, Lawrence T. Stevens, Moses Harper, George Gordon, Mariana Odlin.

CLASS G.

Doris L. Dyer, Humphrey J. Emery, C. Wendell Kimball, Oscar Silverman, Milton Shapiro, H. Gwendolyn Jones, Harold W. Henry.

CLASS H.

Elizabeth Benton, Dean R. Colton, Peter Mamos, Doris E. Sturm, George F. Clark, M. Edith Johnson, Shirley W. Jones, Helen Mansur, Charles J. Silverman.

CLASS I.

Sarah F. Jewell, Blanche E. Walker, Beatrice I. Bagnall, Philip B. Gove, Edith E. Hook, Amy F. Kaime, Harold E. Lovejoy, Earl L. Ludlow.

CLASS J.

Carmi P. W. Brown, Gladys L. Currier, Guy O. Edmunds, Haskell Cohn, Marion L. Colby, Pauline Lane, Oney P. Smith, Doris G. White, M. Charlene L. Pettengill.

CLASS K.

Elizabeth B. Adams, Rachel G. Andrews, Rachel Barker, Dorothy Daggett, Sidney Cullum, Carlton Strong, Ruby Underhill, Edward C. Wilson, Annabel Walker, Louise Horne.

CLASS L.

Miriam Batchelder, Anna E. Murphy, Marion Vose, Allen Hollis, Harry N. Kimball, Evelyn S. Fowler, Eva M. Haines, Frances Heath, Eleanor Holland, Ruth Peckham, Lois Rundlett, Lawrence D. Kimball, Harry A. Morrison.

RUMFORD SCHOOL.

CLASS E.

Lillian F. Guerin, Arnold Hill, Harold L. Johnson, Merle G. Tabor, Roy C. Perry, Ethel Ravitch, Josephine A. Cote, Joseph Brooks.

CLASS F.

C. Edgar Kunberger, Robert N. Nelson, Robert P. Dutton, Pearl E. Parker, Celia F. Sherr, Henry M. Clay, Nathan Sanel.

CLASS G.

Willis J. Sawyer, Irene A. Young.

CLASS H.

Mary P. Walker, Field C. Perry, Sadie G. Ash, Freda G. Sargent, Priscilla Wood, Louise Struthers, Emile J. Cote, Margaret L. Osgood, Ethel J. Robinson, Elsie B. Colby.

CLASS I.

Pearl Goldman, Irene Dudley, Lillian E. Berry, Arthur L. Copp, Leslie Ellis, Dorothy A. Gross, Florence M. Hunt, Myrtle B. Beaulac, Daniel W. Howe, Gertrude Ravitch, Eunice E. Quinn.

CLASS J.

Rachel George, Helen Morgan, Arthur Kumberger, Fred Moulton, Hymian Sherr, Nina Ramsay.

CLASS K.

Josephine Belisle, John Burrows, Benjamin Cohen, Arleen Crossley, Louise Durrell, Lillian Gilman, Maud Gurley, Maurice Jones, Willard Nute, Fred Nylen, Frederick Smith, Guy Tabor.

CLASS L.

Hugh Cruikshank, Mary Ahern, Grace Beaulac, Noyes Bond, Leroy Brown, Aurilla Brusseau, Everett Burney, Etta Cohen, Warren Entwhistle, Helen Hartford, George Houston, Rita Preble, Bella Sanel, Earl Sawyer, Anna Sherr, Elinor Vinton.

EASTMAN SCHOOL.

CLASS F.

Herbert E. Bombard, Ralph R. Chamberlin, Ethel M. Cate, Lura A. French, Miriam E. French, Goldie M. Gage, Irene I. Haselton, Alfred P. Laroche, Luella E. Powell, Ina L. Tebbetts, Lottie I. Sargent, Mary A. Spaulding.

CLASS H.

Doris H. Chamberlin, Elizabeth E. Cushing, George V. Lacroix, Dorothy E. Maynard, Evelyn D. McAlpine, Dorothy W. Morrison.

CLASS J.

Marion E. Atwood, Josephine E. Cushing, Ruth I. Fairfield, Lawrence H. Gardner, Esther L. Haselton, Reuben A. Murray, W. Carl Riley, Ruth C. Staniels, Mildred L. Haselton.

CLASS L.

Arthur F. Bombard, Raymond E. Chamberlin, Adnyrum C. Chesley, E. Parker Little, Robert T. Spaulding, Kathleen A. Sargent, Ruth E. Sargent.

GARRISON SCHOOL.

CLASS F.

Florence Clark, Gertrude Rossell, Neva Lindgren, Ella Shepard, John Engel, Morrill Shepard, Lawrence Cotter, Paul Ericson, Elmar Hammar.

CLASS G.

Evelyn Blackwood, Carl Lindstronne.

CLASS H.

Gertrude Anderson, Valborg Anderson, Paul Bailey, Greta Clark, Richard Henry, Lilly E. Silver, Edgar Larson, Bertil Rossell.

CLASS J.

Edith Carlson, Robert Clark, Lawrence Danforth, Fritz Gustafson, Viola Holmquist, Jeannette Ryan, Clarence Spofford.

CLASS K.

Astrid Olson, Roger Eastman, Carl Ekstrom, Fred Rossell.

CLASS L.

Elmer Anderson, Redfield Anderson, Dorothy Chase, Cora Clark, Nora Cotter, Lila Clark, Nannie Dahlgren, Amelia Pollard, Florence Prescott.

WALKER SCHOOL.

CLASS F.

John E. Branswell, Elise M. Denis, Jeannette Laplante, Maurise S. Nelson.

CLASS G.

George A. Howard, Stella V. Johnson, Agnis V. Johnson, Harry J. Morley, Nathaniel Sawyer.

CLASS I.

Myra Flanders, Doris Sabin, Martin Hyland, Mildred Byers, George Boulay, Satnig Najarian, Gertrude Tippet, Madeline Potter, Cora Shepard, Florence Lucier.

CLASS J.

Louise Guyol, Melvin Crowell, Herbert Stevens, Everett White, Harriet Wallace, Bertha Fraser.

ANNUAL SCHOOL MEETING WARRANT.

STATE OF NEW HAMPSHIRE.

*To the inhabitants of Union School District in Concord, N. H.,
qualified to vote in district affairs:*

You are hereby notified to meet at the Auditorium on Prince Street in said district on the twenty-eighth day of March, 1912, at 7.30 o'clock in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To hear and act upon the report of the Board of Education for the past year.
4. To choose three members of the Board of Education to hold office for three years to fill vacancies arising from the expiration of the term of office of William H. Sawyer, Carrie E. Evans, and Edward C. Niles and to fill any other vacancies that may occur in said board.
5. To choose one or more auditors and all other necessary officers for the ensuing year.
6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including industrial education, military drill, night school and medical inspection.
8. To see what sum of money the district will raise and appropriate for occasional and extraordinary repairs of the school buildings during the ensuing year.

9. To transact any other business that may legally come before said meeting.

Given under our hands this ninth day of March, 1912.

JOHN VANNEVAR,
WILLIAM H. SAWYER,
ALICE N. NIMS,
CARRIE E. EVANS,
OMAR S. SWENSON,
EDWARD C. NILES,
D. E. SULLIVAN,
FANNY E. MINOT,
HARRY H. DUDLEY.

Board of Education of Union School District.

CONCORD, N. H., March 11, 1912.

I certify that on the eleventh day of March, 1912, I posted a copy of the written warrant, attested by the Board of Education of said district at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

Signed L. J. RUNDLETT.

CONCORD, N. H., March 11, 1912.

Then personally appeared before me, on this date the said L. J. Rundlett, and made oath that the above certificate by him signed is true.

Signed GEORGE N. FELLOWS,
Justice of the Peace.

A true copy of the warrant, return of service, and certificate of the oath.

Attest: LOUIS C. MERRILL,
Clerk.

CONCORD, N. H., March 28, 1912.

Agreeable to the foregoing warrant, a meeting of the legal voters in Union School District was held at the Auditorium, in the city of Concord, N. H., on March 28, 1912, at 7.30 o'clock in the evening.

The meeting was called to order by the Moderator John B. Abbott who read the foregoing warrant.

ARTICLE 1. The Moderator called for votes for moderator. Mr. H. H. Dudley moved that the clerk cast one vote for John B. Abbott for moderator for the ensuing year and it was so voted. The clerk cast the vote as directed and John B. Abbott having the only vote cast, was declared elected moderator, and was duly sworn by Louis C. Merrill, Justice of the Peace.

ARTICLE 2. Mr. Henry H. Metcalf moved that the moderator cast one vote for Louis C. Merrill for clerk for the ensuing year. The moderator cast the vote and declared Louis C. Merrill elected Clerk and was sworn by Edward C. Niles, Justice of the Peace.

ARTICLE 3. Moved by Henry H. Metcalf to accept the reports as printed, motion seconded, a vote taken and declared adopted.

ARTICLE 4. Mr. Metcalf moved to ballot for three members of the Board of Education for three years, all the names to be on one ticket and that the polls be kept open until 8.15 o'clock and it was so voted and the Moderator declared the polls open.

On motion of Mr. Harry H. Dudley it was voted to proceed with the other articles of the warrant.

ARTICLE 5. Mr. Elwin L. Page moved that the clerk cast one ballot for Henry H. Metcalf and John P. George as Auditors for the ensuing year and it was so voted, the ballot cast and the moderator declared Henry H. Metcalf and John P. George elected Auditors.

ARTICLE 6. Mr. Walter T. McLam offered the following resolution and moved its adoption:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District the sum of Twelve Thousand Seven Hundred Five Dollars (\$12,705) of which sum Seven Thousand Dollars (\$7,000) shall be appropriated for the payment of bonds maturing October 1, 1912, and Five Thousand Seven Hundred Five Dollars (\$5,705) for the payment of the interest on its funded debt accruing during the year.

A vote was taken and resolution declared adopted.

ARTICLE 7. Mr. Henry H. Metcalf offered the following resolution:

Resolved, That there shall be raised and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District for the support of schools for the ensuing year such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools will amount to the sum of Ninety-One Thousand Three Hundred Four Dollars and Ninety Three Cents (\$91,304.93).

Mr. Metcalf moved the adoption of the resolution, a vote was taken and the moderator declared the resolution adopted.

ARTICLE 8. The following resolution was offered by Mr. Charles G. Remick who moved its adoption:

Resolved, That there be raised and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District and appropriated for occasional and extraordinary repairs of school buildings, the sum of Three Thousand Eight Hundred Ten Dollars (\$3,810), and that the expenditure of this sum shall be under the direction of the Board of Education of said district, motion seconded.

A vote was taken and the resolution was declared adopted.

ARTICLE 9. No business being presented, it was voted to pass over the article. The Moderator declared the polls closed at 8.15 o'clock and appointed Miss Harriet L. Huntress, Nathaniel W. Hobbs and Harrie E. Waite a

committee to sort and count the votes, with the following result,

Whole number of votes cast	172
Necessary for a choice	87
John P. George	1
Harry F. Lake	1
William H. Sawyer	169
Edward C. Niles	171
Carrie E. Evans	171

and William H. Sawyer, Edward C. Niles, and Carrie E. Evans were declared elected members of the Board of Education of Union School District for three years and then sworn by Louis C. Merrill, Justice of Peace.

On motion voted to adjourn.

A true record, Attest:

LOUIS C. MERRILL,
Clerk.

TOWN SCHOOL DISTRICT.

TREASURER'S REPORT.

The treasurer of the Town School District of the city of Concord respectfully submits the following report of the receipts and expenditures for the year ending March, 1913:

RECEIPTS.

Balance on hand March 23, 1912,	\$200.06
Amount required by law,	3,316.44
Additional voted by district,	2,000.00
Literary fund,	150.70
Amount received from Walker fund,	2.74
Amount received from dog licenses,	105.19
One half superintendent's salary, from state treasury,	283.34
Costs in Potter case,	13.05
Rebate on tuition from Union District,	9.26
	<hr/>
Total receipts,	\$6,080.78

EXPENDITURES.

Teachers' salaries,	\$2,774.25
Text-books and supplies,	158.72
Fuel,	165.00
Tuition, Union District, high school,	1,127.37
Tuition, Union District, Dewey school,	12.00
Tuition, Union District, H. P. Dame school,	9.00
Tuition, Penacook, high school,	24.30
Tuition, school district of Bow,	16.25
Tuition, school district of Pembroke,	104.50
Repairs,	228.58
Conveying scholars,	121.00

Enumerating children,	\$7.50
Incidentals,	86.68
Janitors,	75.80
Water,	12.00
Superintendent,	493.33
Legal expenses,	50.00
Water jars,	15.26
Salary of school board,	200.00
Salary of treasurer,	25.00
Salary of auditor,	2.00
Printing check lists,	10.10
Balance on hand March 15, 1913,	362.14
	<hr/>
	\$6,080.78

FRANK E. DIMOND,
Treasurer.

This certifies that I have examined the foregoing treasurer's accounts and I find them correctly cast and properly vouched.

JOSEPH W. ABBOTT,
Auditor School Account.

March 15, 1913.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the Board of Mayor and Aldermen of the City of Concord:

The annual report of the librarian for the year 1912, which is hereto annexed, shows that the work of the library has been prosecuted with eminent success, in view of the existing conditions. A perusal of that document is recommended to all who are interested in the educational welfare of the city.

The trustees desire that the usual appropriation for the support of the library be made for the present year.

Respectfully submitted,

R. E. WALKER,
President, Board of Trustees.

REPORT OF THE LIBRARIAN FOR 1912.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN,—This has been a year of steady and normal work rather than of exceptional accomplishment.

The number of volumes purchased has been,	580
Received by gift,	28
Bound periodicals,	117
	—
Total number of accessions,	725
Worn-out volumes withdrawn,	335
	—
Total increase,	390
Number of volumes now in library,	31,625

The net gain to our shelves has been small but our additions have been well assorted, providing recent publications for the thinker, latest handbooks for the worker and recreational literature for old and young. Those who wish the newest fiction can obtain it at small cost from two circulating libraries in our city—excellent enterprises with which our library has not thought it desirable to compete by starting a so-called “pay collection.”

The desk circulation has amounted to 87,287, only two books being lost out of this number. In 1911 the circulation was 91,338. If we had purchased every book asked for without considering whether such purchases were wise and if we had bought unlimited copies of the stories by McCutcheon, Myrtle Reed, Harold Bell Wright, Gene Stratton-Porter, Ellis and Stratemeyer, we might not have had a 4,000 decrease in circulation to report. But would such a disproportionate expenditure of money be approved by the most inveterate novel reader if she were at the same time a taxpayer?

Ten years ago it would have caused us worry to find the desk work falling short, but as every year is increasingly crowded with entertainments in town, it seems inevitable that fewer books will be taken out from a public library for home reading when people stay less and less in their homes.

Our windows command a low-priced theatre and its crowded entrance gives us food for thought; not for harsh criticism, for persons perhaps see there that which instructs or cheers; and we remember that the most commended portions of Travelogs by men like Elmendorf are made up of motion pictures. Moreover, an able paper lately read in conservative England said that every well-equipped library should own besides its customary lecture hall, a moving picture apparatus which would do more than anything else to help it be a great force in education. The loss in the patronage of this library has been chiefly an evening loss, and I wish we owned the best cinematograph in Concord and by it could win back those lads from the poorer classes who used to flock in to our young folks' corner to hunt for entertaining books; and that we could by it make habitual customers of those children who frequent the library only when pressed by their teachers to do so.

The *Library Journal* has hinted that our annual report lacks statistics. I own to a neglect of them; yet they would be given from a sense of duty if such tables of numbers would give what statistics should, namely, facts. But until public libraries agree fully in classifying and the method of making records, one library will say it circulates 45.4 per cent. fiction and another 77.6, and the fact will be that both serve an average public in an average way; and that recorded use is not the actual use I find emphasized by fellow-librarians. Our fiction reading hovers around the 70 per cent. mark; but as there is more work done by fewer assistants in this library than in any of our acquaintance, it does not seem desirable to take time to figure out that fiction lost .005 of 1 per cent. in its hold upon a trustworthy public.

But any remissness on our part in formulating tables of

statistics should be made up for so far as possible by unremitting observation, and for every sum we do not do, we should make a note of the changes in the trend of public reading, so that our institution may "function up to the new needs of the times."

It would be ungrateful not to confess that now and then we avail ourselves of the estimates made by other libraries; for example, we learn through the always fine report of the Grand Rapids Public Library that about 75 per cent. of those who have registered at a library remain its readers. We have over 9,600 signed application blanks; 650 new names were added in 1912. Allowing for many cards having lapsed without their owners duly notifying us, we are keeping hold of a creditable share of 22,000 citizens, though far below the number we want to retain. In one town the librarian never uses the word borrowers, feeling that as the library is public property it is a misnomer to employ a word which implies that people are getting a favor rather than a right. I will term anybody a first cause or an ultimate object of the library if he will only take out often our worthwhile books.

Comparative librarianship is the study of our leisure moments and it appears that we fall behind those librarians who wage aggressive appeal, who send reminders to absentee card-holders, who ask the use of school buildings for branch libraries, who buy advertising space in street cars, who send book-lists to be enclosed in shop pay-rolls, who write circular letters to all in the City Directory living in homes where no one is using the library, who send printed reminders to graduating boys and girls that this is a continuation school, who pile up privileges for teachers, who make model exhibits at State Fairs. Upon reading of these admirable doings, I project a similar campaign but am checked by the thought which amounts to certainty, that superintendent and principals are too busy for that recommended "persistent and systematic coöperation between school and library"; and that in Concord, at least, many interesting and beneficial classes have already been formed

which do not have a good attendance. How can one ask young folks to join clubs even to improve their literary taste, when one hears them complain of having too much to do and sees some of them break down from a surfeit of engagements to meet?

No, our library shall be as well stocked and as alluring as modest funds and a crowded building will permit, and attention shall be called to it as frequently as it seems wise to ask the newspapers for space; but it must rely largely on its merits for custom. Does it not go against the grain of a library to have to keep coaxing people into it? Should one have to burn red fire or beat a tambourine in front of its reading room, which is light, warm, supplied with sixty periodicals and located on a central street-corner?

We had meant to advance the library by extreme methods, but conclude we lack the temperament that can push; therefore we take this opportunity to say that we should like to be asked to do any of the extension work outlined above.

Meanwhile, because stagnation is death, we try to vary the library attractively; witness the alcove in the School Street hall where seats before shelves containing 200 new books enable persons to browse as in a little bookstore. They have taken kindly to the corner, and a traveling man who read there on three occasions exclaimed,

“Oh, these comfortable New England libraries! I don't know what I should do without them!”

In these days when children have to do so much supplementary reading that they grow to regard the library as another task-giver, it has been a welcome sight to see a boy or girl take out a book in this alcove, sit down and be lost to all thought of chores and the supper hour.

When at the other end of the hall was placed an exhibition of large photographs of famous paintings, our little unpretentious building had in humble measure the ideal atmosphere for a public library, inasmuch as art and literature were there free to all.

If the appreciation of the new-book alcove continues

sufficient and no petty thievery is attempted, the feature may be maintained longer than the month for which it was arranged. Some of its patrons are surprised that we think surveillance may be necessary; but it is a fact and perhaps ought to be more generally known, that we are occasionally troubled by mutilation and theft of magazines, by the taking out of books without bringing them to the desk to be charged and by the misbehaviour of readers, not merely juvenile ones but those of high school and street loafer age. It is discouraging to feel that as free as the library is in every way, there are yet some who are abusing its privileges.

I was in Ottawa last July at the time of the meeting in that city of the American Library Association and with 150 out of the 800 delegates took the post-conference trip up the Saguenay River. One may not learn much at a national gathering that she can introduce into her own small library, but one cannot be a fortnight in hotel, steamboat and shops without realizing from what she herself experiences, that the essential of ministering to the public is pleasantness. Is this an obligation, however, when dealing with disorderly customers? Should the sentiment about boys being boys shield them from sharp reprimand and prompt ejection? This autumn when there came a recurrence on Sunday afternoons of trouble with young folks who were not obedient to correction and were wilful rather than thoughtless, it was decided to engage a man for Sunday attendant. He has now been on duty nine times; he has felt the need of arranging for the quick call of a policeman on some occasions, while on other afternoons he has seen as many as 76 readers come and go quietly; of these, 48 were male and 28 female. It is regrettable that more transient people do not enjoy the reading room on Sundays; those who come then are usually the ones who frequent the library and are already familiar with its resources.

It is gratifying to see, through reports of other libraries, that our usage both as concerns discipline and privileges is in accord with that found advisable by them. Each

had had to solve her own problems as intuition and experience dictated; but the resultant code of rules varies little for all libraries. We alter ours seldom now except to remove restrictions. This last year we have omitted without perceiving any harmful results, the clause, "Persons may not exchange their books oftener than once in three days." Originally inserted to prevent children from over-devouring stories, this regulation prevented our consistently giving out material really needed by adults.

It was voted at our last annual meeting to issue a continuation to the fiction catalogue and accordingly Supplement No. 2 was printed at a cost of 40 cents each. They were put on sale at 25 cents each, but only \$7.75 worth have thus far been disposed of.

It is a pleasure to speak of the work of the Reference Room for it has been good in quantity and quality. It is impossible to keep accurate count of all who consult the books on its shelves because many come to the room when the attendant is at dinner, but she has recorded from the beginning of the school year, *i. e.*, the third week in September, to December 31, 1,620 inquirers; for December alone, 345; for the entire year, 4,476, a gain of more than 500 over 1911. The information sought has been of the miscellaneous character usual in reference rooms. In one day Miss Brown looked up answers to the following questions:

How do you make bayberry candles?

Should capital punishment be abolished?

Are the New Hampshire laws for the protection of animals well-devised?

What does induction mean?

What is the life history of a partridge?

Who has the power to impeach the President?

Has the poor man more temptations than the rich?

How does public opinion stand in regard to railroad rates?

Where shall I find a critique of Churchill's novels?

Have you any books on household decoration?

Can you give me late laws and articles relating to child labor?

And while encyclopædias, bound magazines and Poole's Index were being consulted above stairs, on the first floor varied demands were being met. Arrangement was being made with the efficient secretary of the Y. M. C. A. to send books monthly to the jail. A fit quotation was being sought for engraving on a private Christmas card. A man was consulting as to whether a certain subscription set was worth buying. One of our valued customers was asking what would enlighten him along philosophical and religious lines and also what would assist his wife in writing a club paper. The director of the Morrill School had come for the purpose of ascertaining what trade periodicals we would take for the coming year and how they could be used to best advantage by his pupils. A foreigner was in for books in French and to solicit us to pass along the notice that he would teach that language. And the afternoon ended with the willing loan of our bindery trays wherewith to move a lady's private library.

A day like this is a very happy one to a librarian, no matter how tiring it may be, for hers has fulfilled the modern mission of a public library and become "more a fountain than a reservoir."

It was President Faunce of Brown University (recalled by Concordians as living when a boy where the Telephone building now stands), who said to the Hartford Theological Seminary that the public library should be a part of the working capital of every pastor. It is pleasing to state that the ministers of our city are keen to seize upon the best we have in their department. I wish the same could be said of the craftsmen; and we should welcome any suggestion as to how the library could be made more useful to industrial workers.

From the questions instanced, it will be seen that inquiry does not run as of old when the majority of subjects looked up were literary. A librarian who grew up among standard

works is in danger of feeling intellectual snobbishness when the rising generation does not know her old gods. A boy learning to be a compositor in the Manual Training School brings in for our revision his galley proof of a reading list and it is rather a shock to see thereon titles such as:—

Heney Esmond

Idles of the king

The Vicar of Mansfield

The Outcast of the Breakfast Table

We happen to know that the Vicar lived at Wakefield and to have had a lifelong acquaintance with the Autocrat, but that boy knows things that we do not; he is going to make a printer whose craftsmanship would amaze the unpractical Vicar, and he is absorbing ideas from the beautiful pages of *Printer's Art* instead of from the *Atlantic Monthly*. A library, like an individual, has got to help people in *their* way not in *its* way; it must feel no touch of resentment if a man wants "Twentieth Century Socialism" and does not want George Meredith's Letters. Enough if it has made provision for the higher education of all citizens.

Personally I have this past year realized afresh that a library can be something vital to an individual, for during a period of ill health in the spring a book like "Nerves and Common Sense" was a genuine tonic; and I believe that, as is said in "The Human Way" (essays which are themselves most sustaining to the spirit), "There will always be those who will have to lean upon the printed word."

Respectfully submitted,

GRACE BLANCHARD,
City Librarian.

HEALTH DEPARTMENT.

BOARD OF HEALTH REPORT.

To the Mayor and Board of Aldermen:

The Board of Health submits the following report for the year ending December 31, 1912.

Regular meetings have been held on the first Monday of each month. At these meetings considerable business of a routine nature has been transacted, bills scrutinized and matters pertaining to the health of the city discussed with the sanitary officer and others who were present.

The city has been singularly free from epidemics of contagious disease during the past year, and as a natural consequence no extraordinary action has been required of this board.

The report of the sanitary officer, Mr. Palmer, and that of the milk inspector, Dr. Duncan, shows in some detail the work coming under the supervision of this board. These reports are hereby transmitted and made a part of this report.

Respectfully submitted,

CHARLES J. FRENCH, *Mayor*,
CHARLES H. COOK, M. D.,
F. A. SPRAGUE,

Board of Health.

REPORT OF THE MILK INSPECTOR.

To the Board of Health:

GENTLEMEN,—The records of all milk examinations are tabulated in the general department report. These records as soon as made are a matter of public record in the office of the Board of Health.

Examinations show that the milk sold in Concord is a wholesome, clean milk in most cases. We can frankly say that with one exception it is the best milk sold in any city in New Hampshire. Not all milk sold is equally good. The best milks are those that come from farms owned and operated by the man who brings our milk to the door. Personality has a great deal to do with clean milk. The best milk plants in the city lose their value immediately when a careless "hired man" contaminates through ignorance or otherwise the working apparatus of that plant.

The inspector coöperates with the retailers of our city in every way. I was present by invitation at their annual meeting and listened with great interest to their discussion of the conditions about Concord. In a talk to them I made clear our methods of examination of milk and showed how the "filtration test" is managed, by performing the test before them, and invited their coöperation with the inspector for cleaner milk.

The men do coöperate with the inspector, and examinations made for them to detect adulteration in milk they buy for their trade is a routine procedure. Often I am called upon to pass upon a milk for taste, odor or color, due to bacteria in the milk in most cases, but in others due to disease of cow. Most complaints the inspector receives are from milks of the last mentioned character and in some cases the fault lies with the consumer as well as the retailer.

The guinea pig test for tuberculosis is still a routine pro-

cedure. It is our only safeguard without the aid of the tuberculin test to protect the public from milk containing the germ of tuberculosis. One positive test was found during the year and the condition corrected.

The public should be taught to use milk only from tuberculin tested cows. There is no means at present to force this test upon those who raise milk in our city, but there is a spirit among the farmers to go more than half way with any means that might be devised to have the test done, if the cost could be made reasonable. The state takes no action in such matters but there is every reason that the matter should be seriously considered by both city and state as the only means by which we can be sure we are not consuming tubercular contaminated milk.

Yours truly,

CHARLES DUNCAN,
Milk Inspector.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN,—The report of the sanitary officer for the year ending December 31, 1912, is herewith submitted, giving the various tables which show in detail the work of the department.

With the exception of a slight epidemic of measles in February and March which continued until after the school closed in June, the city was remarkably free from contagious diseases. During the year there were reported 17 cases of diphtheria with 1 death; 7 cases of scarlet fever with no deaths; 15 cases of typhoid fever with 4 deaths; 321 cases of measles with 2 deaths and 2 cases of infantile paralysis with 1 death, making a total of 362 cases and 8 deaths, compared with 95 cases and 6 deaths for the year 1911. Cases of whooping cough, chicken pox and mumps are not reported to this department.

There were 466 deaths returned for the year 1912, 7 more than in 1911. The deaths of non-residents and still births, which totaled 181, were not included in reckoning the death rate. With these omitted the death rate, based on a population of 21,497, was 13.25, compared with 13.34 in 1911. There were 252 deaths in the nine wards of the city and 214 deaths at the public institutions. The mortality from tuberculosis was such lower than ever before, there being only 15 deaths for the year 1912, 14 less than in 1911, 17 less than in 1910 and 25 less than in 1909. This shows a steady decline which is certainly gratifying. There were 189 bodies removed from Concord for burial in other places and 129 bodies were brought here for interment.

The use of formaldehyde was continued in fumigation and your attention is called to the table which shows the

amount of work done in this line. The school books owned by Union School District were fumigated at the close of school in June. Besides the fumigation after recovery or death from contagious diseases, rooms were fumigated upon request in a number of instances for various causes, the material being paid for by the owner.

The plumbing jobs completed during the year complied with the regulations, water tests being made of all new work and peppermint tests made of old work upon request. Several changes were made in our plumbing rules when the City Ordinances were revised.

Inspections were made of all the barber shops in our city and with one exception conditions were found to be good and the rules governing barber shops were being complied with.

Samples of Penacook Lake water were analyzed at the State Laboratory at different times and found to be satisfactory. A sample of water taken from the well at White Park in June showed no improvement over past analyses, and a new well was driven later in the month which showed water practically identical in character. When this water was found to be unsuitable for public use, arrangements were made for the use of city water for drinking purposes.

In our efforts in carrying out the vaccination law in Union School District, in private and parochial schools and in the schools in Penacook we have received the hearty cooperation of the school boards, superintendents, principals and teachers, and have had no trouble in producing satisfactory results. But in the out-lying districts we have been opposed by the school board, the superintendent and the teachers, with two exceptions, and have received no assistance whatever. I have been obliged to exclude children from school and also to call on the city solicitor for his services in bringing about such results as have been obtained, and I recommend to the law abiding citizens of the out-lying district to elect such persons to office as will not oppose the carrying out of the laws that govern our state and city.

The appropriation for the Health Department for the year 1912 was \$2,600 and the expenses were \$2,542.92, showing a balance of \$57.08. We received \$31.01 from the sale of antitoxin and fumigation supplies. Owing to the small number of cases of diphtheria it was unnecessary to purchase antitoxin, there being a supply on hand at the close of the year 1911. This antitoxin was returned to the manufacturers when it became out-dated and a fresh supply was sent us in exchange.

In closing this report I wish to thank the Mayor and the other members of the Board of Health, the members of the city government, the city solicitor and all others who have given me advice and assistance during the year.

Respectfully submitted,

CHARLES E. PALMER,
Sanitary Officer.

EXPENDITURES OF THE BOARD OF HEALTH OF THE CITY OF
CONCORD FOR THE YEAR ENDING DECEMBER 31, 1912.

SALARIES.

Charles E. Palmer, sanitary officer, salary,	\$1,400.00

NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances for the year 1912 appears below:

Accumulation of ashes and other rubbish,	11
Catch basin traps broken,	6
Complaints made without cause,	3
Conditions in grocery stores and markets,	2
Dead animals,	24
Drinking water questionable,	3
Dumping rubbish and odor from dumps,	9
Expectorating in house and on street,	3
Food suspected of being adulterated,	1
Keeping geese unconfined,	1
Keeping hens,	6
Keeping hogs,	15
Milk ordinance not being complied with,	1
Odor from garbage,	12
Odor from manure,	6
Odor from privy vaults,	7
Odor from sewers,	1
Odor from slaughtering,	2
Odor from stables,	3
Odor in blocks,	4
Odor in houses,	20
Odor in stores,	2
Other complaints and inspections,	54
Pediculosis,	2
Sewers obstructed,	1
Sink drains offensive,	7
Stagnant water,	1
Stone drains obstructed,	1
Suspected contagious disease,	1
Suspected rabies,	1
Throwing out slops and rubbish,	8
Uncleanly condition of barber shops,	1
Uncleanly condition of premises,	14

Uncleanly condition of water closets,	7
Uncleanly condition of watering troughs,	1
Water closets out of repair,	9
Water in cellars,	9
	<hr/>
Total,	259

INSPECTION OF PLUMBING.

Plumbing permits granted,	95
Number of inspections made,	190
Water-closets put in,	179
Sinks put in,	171
Bath-tubs put in,	78
Wash-bowls put in,	140
Wash-trays put in,	27
Urinals put in,	3
Shower baths put in,	6
Slop-sinks put in,	8
Glass washers put in,	1
Number of sewers inspected,	38

FUMIGATION.

Rooms fumigated,	290
Schoolrooms fumigated,	20
School buildings fumigated,	1
Wards at hospitals fumigated,	19
Cellars fumigated,	5
Closets fumigated,	10
Dungeons at prison fumigated,	6
Dormitories fumigated,	1
Taxicabs fumigated,	1
Stables fumigated,	1
Tombs fumigated,	1
Gymnasium fumigated,	1
Books and pieces of clothing fumigated,	17

REPORT OF MILK EXAMINATIONS AND INSPECTION OF MILK
FARMS.

Number of milk examinations made,	214
Number of examinations below standard,	1
Number of samples dirty,	2
Number of tests for tuberculosis found negative,	2
Number of tests for tuberculosis found positive,	1
Number of milk farms inspected,	43
Conditions good,	17
Conditions fair,	17
Conditions poor,	9
Number of notices and recommendations given,	24

SUMMARY.

Houses placarded in cases of contagious diseases,	199
Placards removed,	199
Visits made to contagious diseases,	302
Burial permits issued,	466
Burial permits issued for interment of bodies brought here,	129
Transit permits issued,	189
Number of persons to whom milk licenses were issued,	190
Number of persons to whom garbage licenses were issued,	52
Number of reports of contagious diseases sent to the state board of health,	52
Number of reports sent to the surgeon general, public health and marine-hospital service,	52
Number of mortuary reports issued,	948
Number of vaccination certificates issued to school children,	1,039
Number of permits issued for children to return to school after recovery from contagious diseases,	45
Number of samples of water collected for analysis,	7
Number of inspections of barber shops,	19

Paid for labor,		18.00
	PECKER PARK.	
Paid for labor,		12.00
	AREA AT SOLDIERS' MONUMENT.	
Paid for labor,		16.00
	<hr/>	\$3,620.42

In summing up the work on the parks for the past year, it can only be a rehearsal of the character of the work in former years, yet in the review of the last year some progress has been made. The iron fence has been extended along Center Street at White Park, leaving only about two hundred feet to complete this side. It is hoped to begin on White Street, which with a suitable entrance would add greatly to the utility and preservation of the grounds.

A sanitary drinking fountain was placed at the White Street entrance and it has proved a convenience and others should be installed. In June the use of the park was given to the schools of the city to inaugurate the Folk Dances which had been practised in the schools. It was a most

successful event and it would have been hard to find a more beautiful setting for the occasion. It is hoped that it will be repeated from year to year.

The usual work at Rollins Park has been carried on and the grounds have presented a splendid effect. The playground south of this park has been developed this year more than ever by united efforts and it has proved a success.

The superintendent, Mr. Atkinson, has been diligent, in making the most at hand to maintain the character of the work on the parks during the past year.

At the request of the mayor, the superintendent has cared for the plants and flowers at Memorial Arch.

CHARLES J. FRENCH, *Mayor, ex officio,*
WILLIS D. THOMPSON,
GARDNER B. EMMONS,
BENJ. C. WHITE,
WILLIAM P. FISKE,
WILLIS G. C. KIMBALL,
CHARLES P. BANCROFT,
Commissioners.

PARKS.	Year.	Appropriation.	Gifts.	Receipts from other sources.	COST TO DATE.		Total.	Area.	NOTES.
					Land.	Construction and maintenance.			
WHITE PARK, the gift of Mrs. Nathaniel White.....	1884	*\$27,550.70	\$2,250.00	\$1,022.50	\$2,100.00	\$59,112.04	\$64,484.54	23½ acres.	White Park has received the following gifts: Mrs. N. White, \$1,700.00 Mrs. C. H. Newhall, 500.00 Mr. C. H. Newhall, 50.00 The city made addition to original gift, paying therefor \$2,100.
ROLLINS PARK, gift in part of citizens of Concord.....	1892	*6,350.00	192.50	{ 2,000.00 1,250.00 3,307.50 }	14,449.32	21,199.32	25 acres.	Rollins Park. The city has made addition to original gift, paying \$6,557.50 therefor.
PENACOOK PARK.....	1883	1,931.80	2,238.01	2,238.01	Penacook Park, on the shore of Penacook Lake, came under control of the park commissioners in 1896. City had charge before, and has spent from commencement of work in 1883, an additional sum of \$4,444.13.
BRADLEY PARK.....	1896	*1,050.72	1,560.84	1,560.84	½ acre.	
RIDGE AVENUE PARK, gift of the West End Syndicate.....	1898	*182.10	375.78	375.78	½ acre.	
FISKE PARK.....	1901	*230.00	604.11	604.11	½ acre.	
PECKER PARK.....	1905	200.00	331.08	483.08	483.08	A small piece of land in East Concord was developed and was paid for by a gift of \$200 from J. Eastman Pecker, and named Pecker Park, to which he has added \$100.96 for sub-dial and other improvements.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1912.

The department responded to 63 bell alarms and 192 still alarms.

In addition two fires occurred in Penacook for which no alarms were given, making a total for the year of 257, a decrease of 58 compared with the record of the previous year.

	Bells.	Still.	No Alarm.	Total.
Precinct,	33	150		183
Penacook,	21	26	2	49
East Concord,	5	7		12
West Concord,	4	9		13
	63	192	2	257

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance, and insurance recovered in each case.

No particularly dangerous fires occurred during the year and there was a marked decrease in the number of forest fires.

The largest loss accompanying one fire was that entailed by the lumber yard fire at Penacook June 29th.

The apparatus is in good condition and no extensive repairs were required during the year.

The fire alarm telegraph systems of the city proper and Penacook are in good condition.

It was found necessary to renew the battery elements of the former in June.

Two boxes, 131, 191, for use in the northwest section of the city were purchased but not delivered in time to be placed in position before the close of the year.

Eight hundred feet of 2½-inch hose and three horses were purchased.

The Alert Station was remodeled and the wagon is now running as a two-horse wagon.

This leaves but one one-horse wagon in the precinct and I respectfully recommend that this be made a two-horse wagon.

I also recommend the purchase of at least 500 feet of 2½-inch hose during the coming year. One noticeable improvement made during the year was the installing of a standpipe in the Central Station with hose connections in basement and on first and second floors.

The expense of this as well as that attending remodeling the Alert Station was borne by the Committee on Lands and Buildings. During the month of September, I had the pleasure of attending the convention of the International Association of Fire Engineers held at Denver, Col., a report of which I rendered at that time. The convention was a largely attended and instructive one and for the privilege afforded me to learn I was sincerely grateful.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

STILL. December 19, 7.14 p. m. Chimney fire in residence of A. F. Smart, 32 Stone Street. Extinguished by Chemical Company. No loss.

STILL. December 22, 4.59 p. m. Chimney fire in residence of Napoleon Roy, 32 Woodman Street. Extinguished by Chemical Company. No loss.

STILL. December 22, 9.50 p. m. Chimney fire in residence of G. L. Turcotte, 4 Oak Street. Extinguished by Chemical Company. No loss.

STILL. December 23, 7.22 p. m. Alarm occasioned by collision of two locomotives in the Boston & Maine R. R. yard opposite Chandler Street, the desire being the extinguishing of the fires in both fire boxes. Chemical Company responded, but as there was a heavy fire in both engines, it was deemed a little expensive to extinguish them by that method, there being a hydrant close by.

STILL. December 23, 7.36 p. m. A call for assistance from scene of preceding fire. Kearsarge wagon and detail from Good Will Hose Company sent. Three hundred and fifty feet of hose wet. No loss.

STILL. December 25, 8.28 a. m. Chimney fire in residence of E. C. Chapman, 300 Pleasant Street. Extinguished by Chemical Company. No loss.

STILL. December 26, 7.48 a. m. Fire in basement of Colonial Block, 9-15 South Main Street owned by H. Shapiro and occupied on the first floor by the owner as clothing and shoe stores and the Mohican Company as a food department store. The upper floors were occupied by various tenants, most of whom were fortunate enough to escape loss from the gas and smoke which poured in dense volume from the basement. The fire originated un-

der the clothing store at No. 15 from spontaneous combustion of soft coal of which there were some fifty tons together with several tons of hard coal, most of which the firemen were compelled to remove in order to reach the seat of the trouble. Upon the arrival of the Chemical Company the extent of the task in hand was realized and a call for assistance sent in.

STILL. December 26, 7.55 a. m. Kearsarge wagon sent to Colonial Block and one high service laid as a precautionary measure but no water used. Chemical Company dismissed and detail from the department started to remove the coal. On account of the gas it was necessary to work the men in short shifts. One man was overcome soon after operations commenced and sent to the hospital, and later in the day another was overcome. At noon another detail of men was added to the force at work.

STILL. December 26, 1.26 p. m. Increased heat indicated near approach to the fire and the Chemical Company was again summoned.

Box 35. December 26, 1.31 p. m. Hardly had the Chemical Company entered the basement when a large quantity of gas was released which immediately ignited and the whole basement was aflame. Holes were cut in the floor above and a deluge of water soon ended the trouble as far as danger to the block was concerned. Nineteen hundred fifty feet of hose wet. Recall 2.54 p. m. Detail labored removing the coal until 5.00 p. m.

APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central Fire Station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine Company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine Company (14 men); one second-class Amoskeag engine, "Governor Hill," relief engine, in charge of an engineer and firemen and one double 60-gallon-tank Holloway chemical engine, in charge of two permanent men; one ladder truck, "City of Concord," attached to Hook and Ladder Company (21 men); one house man at Central Fire Station. There are twelve horses kept at this station. There are six permanent men located at the Central Fire Station and one permanent man at each fire station within the precinct.

The Alert Hose Company (11 men), located on Washington Street, has a modern hose wagon with permanent man and two horses.

The Good Will Hose Company (11 men), located on the corner of Concord and South State Streets, has a modern hose wagon with permanent man and two horses.

Veterans' Auxiliary Company (30 men).

One hook and ladder truck, one hose reel and one wagon in reserve.

The "Pioneer" Engine Company, No. 3 (28 men), at Penacook, has a third-class Metropolitan engine, with two hose wagons.

The Cataract Company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand engine and a modern hose wagon.

Old Fort (30 men), East Concord, has a 4½-inch cylinder Hunneman hand engine and hand ladder truck, and one hand-drawn chemical engine, 50-gallon, single tank.

FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into six districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, Box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington Streets.

DISTRICT 3. Embraces all between Pleasant and School Streets.

DISTRICTS 4, 5, AND 6. Embrace all south of Pleasant Street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 9. New Hampshire State Prison.
- 12. Curtice Avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. C. S. Gale's Store.
- 19. Centre and Liberty.
- 131. Franklin and Charles.
- 191. Auburn and Granite.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.

26. Centre and Union.
27. School and Merrimack.
28. School and Spring.
29. Centre and Essex.

DISTRICT NO. 3.

32. Warren and Pine.
34. Central Fire Station.
35. Martin's Drug Store.
36. Pleasant and Spring.
37. Pleasant and North Fruit.
38. Orchard and Merrimack.

DISTRICT NO. 4.

41. South and Thompson.
42. Good Will Hose House.
43. Main and Fayette.
45. Nelson & Durrell's Store.
46. Perley and Grove.
47. South, opposite Downing.
48. Thorndike and South.
49. West and Mills.
412. Wall and Elm.
413. Main, opposite Thorndike.
414. State and West.
471. Clinton and South Fruit.

DISTRICT NO. 5.

51. Boston & Maine Railroad, new shops.
52. South Main and Allison.
53. Hall and Hammond.
54. Broadway and Pillsbury.
56. St. Paul's School.

- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

DISTRICT No. 6.

- 62. South Main, opposite Holt Bros.

PRIVATE BOXES.

- 5. Boston & Maine Railroad, north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire State Hospital.
- 8. Page Belting Company.
- 9. Three boxes inside New Hampshire State Prison.
- 33. State House.
- 39. Odd Fellows' Home.
- 55. Boston & Maine Railroad, old repair shops.

 FIRE-ALARM SIGNALS.

Alarms rung in from Boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 471, 51, 52, 53, 54, 55, 56, 57, 62, 521 and 522, will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from Box 56.

Alarms rung in from Boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 131, 191, 21, 23, 26, 27, 29, 32, 37, 39 and 56 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose Companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from Boxes 12, 37, 53, 54, 57, 191, 471 and 521 will not be responded to by the Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to Box 6, on first alarm; to Boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to Boxes 7, 8, 9 and 39 on first alarm; to Boxes 5, 6, 12, 13, 14, 15, 16, 17, 18, 19, 131, 191, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 471, 52, 54, 55, 57, 62, 521 and 522, on second; to all others on third.

Chemical Engine will respond to all box alarms except 8, 9, 51, 56, 57 and 521.

Veterans' Auxiliary Company will respond to all third alarms occurring before the recall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, Box 34 (Central Station) will follow.

All-out signal, three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

MILITARY SIGNAL.

Two rounds of 3-1-2.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock. a. m.

The signal to close for the afternoon session will be given at 1 o'clock p. m.

The signal to close all schools for one session will be given at 11.30 a. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH.

is the "Gamewell" patent. It embraces 42 miles of wire.

On the lines are 46 fire-alarm boxes belonging to the city, and 10 private boxes—in all, 56. There are three alarm bells, one of 3,724 pounds (bell metal), one of 3,740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 direct action tappers, one four-circuit repeater, and six indicators.

The battery consists of 252 storage battery cells.

The alarm system was installed in 1880 by the Gamewell Fire-alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go. Should there be no response, pull it again.

Then should there be no response, go to the next box.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

PENACOOK FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

W. C. Green, Chief Engineer:

I herewith submit for your consideration the following report of the Penacook fire-alarm telegraph system. The system is the Gamewell patent, and consists of four and one-half miles of No. 9 iron wire. On the lines are eleven boxes owned by the city, two private boxes, one 1,500-pound bell, one indicator, three mechanical gongs and three direct-action tappers. The battery consists of thirty-six storage battery cells. One new box was added the past year. I would respectfully recommend the addition to the system of two new boxes the coming year.

Respectfully submitted,

FRED M. DODGE,
Superintendent of Fire Alarm.

LOCATION OF BOXES.

31. Elm Street, near S. N. Brown's house.
34. Charles Street.
35. Washington Square.
37. Washington Street, near outlet.
38. Junction of West Main and South Main Streets.
39. South Main Street, near cemetery.
41. Corner of Centre and East Canal streets.
42. High Street, opposite Maple Street.
45. Summer Street, opposite Church Street.
47. Merrimack Street, opposite Hose House.
48. Corner Penacook and Rolfe streets.

PRIVATE BOXES.

25. Hoyt Electrical Instrument Works.
62. Concord Axle Works.

ALL-OUT SIGNAL.

Three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each.

OUT-OF-TOWN SIGNAL.

Two rounds of eleven strokes each.

FOR FIRE ON BOSCAWEN SIDE.

Box 35, with two additional strokes.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close all schools for the forenoon session will be given at 7.30 a. m.

The signal to close for the forenoon session at the Charles Street building will be given at 8.00 a. m.

The signal to close all schools for the afternoon session will be given at 12.15 p. m.

The signal to close for the afternoon session at the Charles Street building will be given at 12.45 p. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Saturday afternoon at 12.50 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

DIRECTIONS FOR GIVING AN ALARM.

To open the box, break the glass and turn the key.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook the whole length of the slot, once only, and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department. Never open the box or touch anything pertaining to it except in case of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

The Penacook fire-alarm system was installed in June, 1908, under direction of the chief engineer.

REVISED ORDINANCE.

CHAPTER XVIII.

FIRE DEPARTMENT.

SECTION

1. Fire department—how constituted.
2. Tenure of office, vacancies.
3. Chief engineer, salary.
4. Chief engineer, powers and duties.
5. Assistant engineer, powers and duties in absence of chief.
6. Foremen, duties of inspection, etc.
7. Foremen, duties at fires.
8. Stewards, Alert and Good Will Hose companies.
9. Apparatus to be cleaned, etc.
10. Badges and uniforms.
11. Salaries and pay.
12. Extra services, charges for.
13. Apparatus and firemen to be kept in city.
14. Engineers to inspect buildings; to take means for speedy extinguishment of fires.
15. Absence, neglect of duty.
16. Volunteer companies.
17. Parade, drill, and inspection.
18. Engineers—full control at fire.
19. Regulations concerning shavings and combustibles.
20. Board of engineers to make regulations.

SECTION

21. Disobedience and neglect of duty; qualifications of members.
22. Applications for membership; officers and members not to take part in political matters.
23. Fire alarm telegraph—chief engineer to have control.
24. Vacation without loss of pay, when.
25. Supplies, purchase of.
26. Removal and protection of property endangered by fire.
27. Hydrants to be personally examined by chief engineer.
28. Pay-roll of department.
29. Care and control of fire department buildings in Wards 1, 2, and 3.
30. Stewards of companies in outside wards.
31. Regulations concerning drivers and permanent men; chief engineer to be furnished with horse and wagon.
32. Brush and forest fires.
33. Veteran Firemen's Associations made auxiliary branch.
34. Appropriation for.

SECTION 1. The fire department shall consist of a chief engineer, two assistants within the precinct, one engineer each from Ward 1, Ward 2, and Ward 3; two steamer and hose companies, one company to consist of thirteen men, including driver, and one company to consist of fourteen men, including driver, one relief steamer (company) to consist of two men; two hose companies to consist of eleven men, including driver; a chemical engine company to consist of two men; a hook and ladder company to consist of twenty-one men, including driver, a house man at Central Fire Station; steamer Pioneer, not less than twenty nor more than forty men; hand engine companies No. 2 and No. 3, not less than twenty nor more than thirty men each. Each company shall be allowed three substitutes, except Hook and Ladder company, No. 1, which shall have five, to be approved by the chief-engineer. The engineers shall exercise the powers of fire wards, and those within the precinct shall constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, any assistant engineer, or any officer or member of the department. In case of vacancies from any cause in the department, of officers or men connected in any manner with the fire service, such vacancies shall be filled by the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, unless herein otherwise provided, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services as chief, in addition to the use of said house, rent free, the sum of twelve hundred and fifty dollars per annum.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses, and other houses belonging to the city and used by the department, and by the companies thereto attached, as often as once a week, and whenever directed to do so by the mayor, or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the board of aldermen annually a statement of the receipts and expenditures of the fire department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall, under the direction of the committee on fire department, cause the same to be made, and as far as practicable he shall examine into the location and condition of fire apparatus belonging to corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respective companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured and the amount of loss and insurance on the same, together with the names of owners or the occupants and

shall make returns as required by the public statutes. He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fires.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank, who may be present, shall have the powers and perform the duties of the chief engineer, and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The captain of each engine, hose, and hook and ladder company, immediately after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept by the clerk of his company, exact rolls, specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls and record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engineer, true and accurate returns of all members, with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The captain of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the lieutenant shall assist the captain in the discharge of his duties and act as clerk of the company, and in the absence of the captain assume his authority. The captain and lieutenant shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies shall act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective stations at night; and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company to have its engine, hose and other apparatus cleaned

washed, oiled, reeled and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective captain may direct.

SEC. 10. All members of the department when on duty shall wear some suitable badge, to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation uniform worn by the fire department.

SEC. 11. The pay-rolls for the board of engineers and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Captains and clerks of companies will forward their pay-rolls to the board of engineers for approval, and after the action of said engineers and the committee on accounts and claims, said pay-rolls shall be passed over to the city tax collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SEC. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SEC. 13. No engine, hose or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, not shall any apparatus of the fire department be taken from the city except in case of fire without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any firemen, at such an emergency, to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SEC. 14. It shall be the duty of engineers and firemen, whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers shall take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the fire. The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, school-houses and asylums once in each six months, and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of

the officer in command at the fire; and it shall be his duty to enquire if there is an officer in charge.

SEC. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar; provided, however, that any fireman liable as above may in case of sickness have power of substitution by giving notice, each assistant engineer to the chief, each captain to an engineer, and each other member to the captain of his company. All fines shall be paid to the clerks of respective companies at the first regular meeting after they are incurred. The clerks of companies shall disburse the fines to substitutes answering for absent members in cases where there were substitutes. In cases where there were no substitutes the fines shall be paid to the city.

SEC. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SEC. 17. The department shall appear for public parade, drill and inspection at such times as the chief engineer and committee on fire department shall order, for which purpose three hundred dollars may be expended annually. The companies in Ward 1, 2, and 3 will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SEC. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. An engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SEC. 19. The engineers may establish such regulations respecting the kindling, guarding, and safe keeping of fires, and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers. Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offence may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SEC. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, subject to the approval of the board of mayor and aldermen.

SEC. 21. If any member of any of the several companies shall wilfully neglect or refuse to discharge his duty, or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offence be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SEC. 22. All applicants for membership shall be nominated, by the chief engineer, and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen.

No person shall hereafter be appointed to any position in the fire department unless and until the committee on fire department shall have certified in writing to the board of mayor and aldermen that such person has been examined by them, or under their supervision, and is in their opinion qualified to perform the duties of the position to which he is nominated.

No officer or member of the permanent, or officer of the call force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SEC. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence, and under the direction of the joint standing committee on the fire department have control, of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the Central station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-alarm system. He shall personally be able to master the fire-alarm in every particular, and every permanent man at the Central station shall be obliged to understand the fire-alarm system in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or from acting promptly in any emergency.

SEC. 24. Permanent officers and men of the department shall be entitled to a vacation without loss of pay of fourteen days in each year. In addition they shall be entitled to be off duty without loss of pay two days in each month, such two days not to be taken in the same week. In the weeks that they are not off duty for a day, under the above

provision, they shall be entitled to be off duty for one night without loss of pay. All vacations and absences from duty under the above to be under the direction of the chief engineer.

SEC. 25. The standing committee on fire department, subject to the board of mayor and aldermen, shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department must come through said committee, and annually at the call of the finance committee, in connection with the chief engineer, they shall make recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SEC. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SEC. 27. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants.

SEC. 28. The annual pay of the members of the fire department shall be as follows, and in full for all services in said department:

Chief, twelve hundred and fifty dollars per annum and house-rent; permanent force at Central fire station, eight hundred and forty dollars each, drivers at Good Will and Alert hose houses, eight hundred and forty dollars each, the members of the chemical company nine hundred and twelve dollars each, per annum, payable semi-monthly; assistant engineers, within the precinct, one hundred and forty-five dollars each; engineers of steamers, within the precinct, one hundred and thirty-five dollars each; captains of companies, within the precinct, each one hundred and ten dollars per annum; lieutenants of companies, within the precinct, one hundred and five dollars per annum; members of steamer, hose, and hook and ladder companies, within the precinct, and house man at Central fire station one hundred dollars per annum; outside the precinct, engine companies Nos. 2 and 3, three hundred and forty dollars each, and Pioneer Steamer company No. 3, six hundred dollars, said sums to be divided among the members as each company shall direct; engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant

engineer at East Concord, twenty dollars; and assistant engineer at West Concord, twenty dollars.

SEC. 29. The several engineers residing in Wards 1, 2 and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls, or any other part of such building, shall be made. Said engineers may severally appoint janitors, at annual salaries not to exceed fifteen dollars, who shall serve under the exclusive direction of the engineer having the care and control of the building where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen, of all receipts and expenditures for the preceding year on account of such buildings.

SEC. 30. Stewards for the Pioneer Steamer company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer company, thirty dollars per annum, and when performing the duties of janitor of the building an additional sum of forty-five dollars per annum; and for stewards of engine companies Nos. 2 and 3, thirty dollars per annum each. No steward shall be allowed to purchase supplies for such building, or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SEC. 31. The permanent men and horses at all of the fire stations in Concord shall at all times be on duty at their respective stations to attend to fire alarm calls; and neither the permanent men nor the permanent horses connected with the fire department shall engage in any work for any other department of the city.

The men at the different fire stations shall do such work in connection with the station and apparatus as the chief engineer or his assistants may direct. All permanent men shall lodge in their respective stations (except the chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department shall have power to hire the same; the chief may also increase as far as possible the number of call men who wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, for his use at all times.

SEC. 32. All alarms for brush or for forest fires shall be responded

to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer.

SEC. 33. The Veteran Fireman's Association is hereby constituted and made an auxiliary branch of the regular fire department of this city, the members of said association to be considered as honorary and to organize a coöperative working force to serve in emergency, without compensation, such service to be under the direction and control of the officers of the regular organization in allegiance and compliance thereto.

SEC. 34. The standing committee of the board of aldermen on fire department is authorized and directed to rent, at an expense not exceeding one hundred and fifty dollars a year, suitable rooms for the accommodation of said Veteran Firemen's Association, the same to be selected by said association, the same to be charged to the regular appropriation for fire department.

ADDITIONAL REGULATIONS.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incompleted line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line, in lieu of laying a line of its own.

ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Hose companies shall attach first lines to high-pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.

ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.

ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and

it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.

ART. 7. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. Fire hats are furnished by the city for the protection and identification of the firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.

ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.

ART. 10. All engine and hose companies responding to second or general alarms will connect, but will not lay their lines until they have reported to the officer in command for orders.

ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.

ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.

ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and returns to house with apparatus, unless excused by an engineer.

ART. 14. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.

ART. 15. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Captains will be held responsible for all lack of promptness and efficiency in their commands.

ROLL OF THE FIRE DEPARTMENT, 1912.

Permanent Chief Engineer.

WILLIAM C. GREEN,

Office, Central Fire Station.

Assistant Engineers.

PRECINCT.

WALTER J. COFFIN, 1st Asst., Shipping clerk, 63 Pleasant Street.

SYLVESTER T. FORD, 2d Asst., Moulder, 41 So. Main Street.

WALTER J. COFFIN, Clerk of the Board.

WARD 1.

FRED M. DODGE, Electrical Inst. maker, 61 Merrimack Street.

WARD 2.

ELBRIDGE EMERY, Butcher, Potter St., East Concord.

WARD 3.

GEORGE W. KEMP, Overseer, 443 No. State St., West Concord.

- Box 15. Broadway, corner Carter Street.
- Box 16. Center and Pine Streets.
- Box 17. Pleasant and South Streets.
- Box 18. Warren, opposite Tahanto Street.
- Box 19. Beacon and Rumford Streets.

RECOMMENDATIONS.

I believe that the efficiency of this department would be greatly increased if we had a combination ambulance and patrol automobile, and I recommend the purchase of one.

I also recommend the appointing of two more patrolmen.

CONCLUSION.

I will take this opportunity of expressing my appreciation to His Honor, Mayor Charles J. French and the Honorable Board of Aldermen, Judge George M. Fletcher, and City Solicitor Alexander Murchie for their many favors and courtesies extended to me during the past year.

I also wish to thank the officers and patrolmen for their valuable assistance and loyal support in enforcing the laws and maintaining the efficiency and discipline of the Police Department.

Respectfully submitted,

GEORGE A. S. KIMBALL,
City Marshal.

REPORT OF CITY ENGINEER.

CITY ENGINEER'S OFFICE, CITY HALL.

CONCORD, N. H., December 31, 1912.

To the Board of Mayor and Aldermen:

In compliance with the ordinance creating this department, the twentieth annual report showing the expenditures and operations of the engineering department for the year ending December 31, 1912 is herewith submitted:

Paid for engineer and assistants,	\$2,893.25
car-fares, livery and express,	102.44
supplies,	150.90
telephone rental and tolls,	23.20
services, supplies and transportation, assessors' maps,	994.73
	<hr/>
	\$4,164.52
Appropriation,	\$4,275.00
Expended,	4,164.52
	<hr/>
Unexpended balance December 31, 1912,	\$110.48

SEWERS.

The amounts expended on construction, repairs and maintenance, together with a statement of the general condition of the sewers in the city precinct, will be found in the report made to the Board of Public Works covering the work done under their supervision.

WATER WORKS.

Considerable time was spent in making surveys for proposed additional storage at Penacook Lake, flowage areas computed and much valuable data secured for future use.

FIRE DEPARTMENT.

Plans showing the location of the hydrants and fire-alarm boxes, both in the city proper and in Penacook, were brought up to date, prints of same made and turned over to the chief engineer of the department.

BUILDING PERMITS.

Together with the chief engineer of the fire department I have attended twenty-six hearings, on petitions for new buildings and for alterations to existing structures.

Twenty-five petitions were granted and one petition was referred to the Board of Mayor and Aldermen.

CEMETERIES.

No new blocks were laid out the past season, but in company with the superintendent of cemeteries we have formulated plans for additional lots during the coming season and all material available for grading has been used to the best advantage in grading the new portion.

The deed books have been brought up to date, covering the lots sold and transferred during the past year.

TOWN LINES.

The lines between Concord and the towns of Webster, Boscawen, Canterbury and Loudon were perambulated during the fall of 1912, together with the selectmen of said towns, or, a portion of their boards.

The old bounds were found in good condition with the exception of one on the Boscawen line, which is situated on the "Island," so called, where the plant of the Symonds Table Company is located.

The old bound was broken off and had to be replaced. This was done by the city paying for the bound and cutting same, the town of Boscawen transporting the bound to its proper location and setting the same. Your engineer was present at the setting of the new bound and saw it placed in the ground on the location formerly occupied by the old one. The new bound is much more substantial than the old one and should not be disturbed by future freshets.

STREETS.

Linden Street, in Ward One, was laid out and accepted for a distance of four-hundred feet and grades established.

Home Street, running easterly from Hall Street for a distance of 926.65 feet was laid out and grades established.

River Street, in West Concord, was laid out with the usual provision, that the abutters rough grade the street, for a distance of 393.9 feet.

Gladstone Street was extended 100 feet as an accepted street.

The above changes make our street mileage as follows:

In the compact portion of the city 44.94 miles and in the outlying districts 126.33 miles, a total of 171.27 miles of streets and highways in the town.

Lines and grades were given for macadam roadways on South Street, North State Street, in West Concord; for gravel roadway on the Loudon road and for new concrete sidewalk construction and for other work of the street department when requested.

The usual monthly measurements of concrete sidewalks were made during the season for this work, and statements showing the square yards laid, cost and location of the same made and delivered to the superintendent of streets.

ASSESSORS' MAPS.

The field work on these maps was carried on as usual during the summer months. We have now covered the territory lying west of the Merrimack river and plans covering this territory will be ready for the assessors in April 1913.

The special appropriation for this work was \$1,000, of which amount \$994.73 was expended. The balance was carried to the credit of the engineering department.

Many pieces of property are still carried as estates of former owners, and it requires much time and labor to properly show ownership of them.

It is surprising to note the number of unsettled estates and the number of people who do not record their deeds.

Many deeds are very indefinite in their descriptions and we have not tried to settle disputes over property lines but show the various properties as they are occupied.

The general filing of inventories the past season aided us in many cases to place property which was obscurely located and hard to locate without the aid of plans and deeds.

We have now listed about forty-five hundred owners and their property shown on plans. Many of these owners have several tracts of land and the above number does not indicate the number of tracts shown.

MISCELLANEOUS.

Grades were given the committee on playgrounds at the Kimball playground and a start made to properly grade this lot. Owing to the small appropriation available the results obtained were not all that could be desired.

Street lines and grades for private parties have been given as desired.

Meetings of the Board of Aldermen, the Board of Public Works and committees of the Board of Aldermen have been attended when requested and information given or acquired for their use.

The labors of the Board of Examiners of Plumbers and the Hydrant Commissioners are set forth under their respective headings, in reports to your Board.

The employees of this department during the past season were:

Fred W. Lang, principal assistant; Forrest F. Owen, assistant; Orion H. Hardy, transitman; William E. Nash, Harrold H. Betton, George W. Burke and Earland B. Cook, rodmen.

To the Mayor and the Board of Aldermen, I wish to express my appreciation for the many courtesies shown.

Respectfully submitted,

WILL B. HOWE,
City Engineer.

REPORT OF WATER COMMISSIONERS.

OFFICE OF THE BOARD OF WATER COMMISSIONERS,
CONCORD, N. H., February 24, 1913.

To His Honor the Mayor and the Board of Aldermen:

The Board of Water Commissioners transmits herewith the report of the superintendent, exhibiting in detail the operations of the department for the year ending December 31, 1912, together with the report of the engineer of the pumping station, which documents are made a part of this report.

The works have continued to meet all reasonable demands upon them and the supply has been abundant for domestic purposes and for fire protection.

The report of the superintendent shows that the expenditures for repairs and extensions have been comparatively small for the past year.

The pump which was installed in 1892 in connection with the high service system will require a considerable expenditure the coming year to put it in first-class condition, but the auxiliary pump which was installed in 1904 will undoubtedly furnish an ample supply while the repairs are in progress.

The board has been confronted with a serious problem by the appearance of the gypsy moth in the grove adjoining Penacook Park, which seriously threatened not only the growth on the tract controlled by the board, but also that under control of the park commission and that in the city lot.

The city government has taken steps to endeavor to control the ravages of the pest and it is hoped the effort will be successful.

In the report of the board for the year 1911, it was stated that it was probable that it would be possible to anticipate the redemption of \$15,000 of the water bonds

during the year 1912. The decreased expenditures for repairs and extensions have permitted the redemption of \$41,000 of the water bonds during the year, of which \$32,000 were due January 1, 1922.

The following statement of the amount of bonds issued for the construction of the works, the amount paid and the balance outstanding January 1, 1913, will undoubtedly prove of interest to all citizens of Concord:

Total amount bonds issued,	\$1,140,000.00
of which,	420,000.00
were refunding issues.	
Net amount bonds issued,	<u>\$720,000.00</u>
Total amount bonds paid,	\$628,000.00
Paid by refunding issues,	420,000.00
Net amount bonds paid,	<u>\$208,000.00</u>
Bonds outstanding January 1, 1913,	512,000.00
Net issues as above,	<u>\$720,000.00</u>

The construction account of the Concord Water Works to January 1, 1913, is \$1,027,659.86.

The debt on above account, January 1, 1913, is \$512,000.

Paid from earnings of system, \$515,659.86.

The board desires to commend its employees in all departments for the intelligent and faithful performance of their duties.

Respectfully submitted,

HENRY C. HOLBROOK,
FRANK P. QUIMBY,
EDSON J. HILL,
GEORGE D. B. PRESCOTT,
HARRY H. DUDLEY,
NATHANIEL E. MARTIN,
SOLOMON A. CARTER,
BURNS P. HODGMAN,
CHARLES J. FRENCH, *ex-officio*,
Board of Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the forty-first annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of the extensions and improvements made during the year ending December 31, 1912:

RECEIPTS.

For water, from consumers by fixed rates,	\$15,326.36	
For water, from consumers by meter rates,	60,267.00	
From delinquents,	93.68	
For water for building purposes,	76.64	
pipe and stock sold and labor,	401.03	
old brass and iron sold,	68.25

insurance,	75.00	
	<hr/>	\$3,394.07

EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year as follows:

In School Street,

west from North Main Street to Rumford, 1,796 feet
10-inch pipe.

In Warren Street,

west from North Main Street to North State, 454 feet
10-inch pipe.

In Pleasant Street,

west from Main Street to State, 375 feet 10-inch pipe.

In Pleasant Street,

on connection at North Spring Street, 22 feet 10-inch
pipe.

In North Spring Street,

north from Pleasant Street, 357 feet 10-inch pipe.

In North Spring Street,

south from School Street, 33 feet 10-inch pipe.

In North State Street,

north from Warren Street, 31 feet 10-inch pipe.

In South State Street,

south from Pleasant Street, 21 feet 10-inch pipe.

In Rumford Street,

on connection at School Street, 15 feet 10-inch pipe.

In South Main Street,

south from Maitland Street to Langdon, 182 feet 10-
inch pipe in place of 6-inch pipe discontinued.

In Pleasant Street Extension,

east from Main Street, 292 feet 8-inch pipe.

- In Odd Fellows Avenue,*
south from Warren Street, 19 feet 8-inch pipe.
- In Fiske Road,*
north from Pleasant Street, 750 feet 6-inch pipe in
place of 2-inch and 1-inch pipe discontinued.
- In Home Avenue,*
east from Hall Street, 362 feet 6-inch pipe.
- In Langdon Street,*
east from South Main Street, 358 feet 6-inch pipe.
- In Sexton Avenue,*
east from South Main Street, 210 feet 6-inch pipe in
place of 1-inch pipe discontinued.
- In Maitland Street,*
west from South Main Street, 192 feet 6-inch pipe in
place of 1-inch pipe discontinued.
- In Penacook Street,*
extended east, 179 feet 6-inch pipe in place of 1-inch
pipe discontinued.
- In Clarke Street, West Concord,*
extended east, 23 feet 6-inch pipe in place of 1-inch
pipe discontinued.
- In Linden Street, Penacook,*
south from Washington Street, 285 feet 6-inch pipe.
- On hydrant branches,*
137 feet 8-inch pipe and 36 feet 6-inch pipe.
Also 931 feet 1-inch pipe.

Thirteen new hydrants have been set, as follows:

On Capitol Street, at south gate of State House Yard.

On School Street, at Durgin.

On School Street, at North State.

On School Street, at Green.
 On Warren Street, at Odd Fellows' Avenue.
 On North State Street, at Warren.
 On Pleasant Street Extension, at Railroad Square.
 On South State Street, at Pleasant.
 On North Spring Street, at High School.
 On North Spring Street, at School.
 On Fiske Road, at Trask's.
 On Penacook Road, at Harriman's.
 On Electric Avenue, Penacook, at Washington.
 There have been set 31 gates.

SUMMARY OF THE FOREGOING.

NEW PIPES, HYDRANTS AND STOP-GATES.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-Gates.</i>
1-inch, 931 feet.	In City, 11	4-inch, 1
4-inch, 4 feet.	In Penacook, 2	6-inch, 12
6-inch, 2,395 feet.		8-inch, 11
8-inch, 448 feet.		10-inch, 7
10-inch, 3,286 feet.		
7,064 feet.	13	31
equal to 1.337 miles.		

Total length of main and distribution pipes now in use,
 367,395 feet, equal to 69.58 miles.

Total number of gates now in use, 1011.

Total number of hydrants now in use, 430.

SERVICE PIPES.

There have been laid during the year and connected with
 the main pipes, 43 service pipes consisting of

34 $\frac{3}{4}$ -inch,	822 feet.
2 1-inch,	81 feet.
3 2-inch,	52 feet.
4 4-inch,	104 feet.
43	1,059 feet.

There have been discontinued, 28; of these, 21 were services which had supplied buildings now town down and most of them had been shut off for several years. Whole number of services at the present time, 3,752; total length of service pipes, 87,520 feet or 16.57 miles.

We have set 99 meters during the year; 9 have been removed, making the total number now in use, 2,243.

Of the 3,752 services now connected, 1,206 are on high service and 2,546 on low service; of the 2,243 meters, there are on high service, 663 and on low service, 1,580; of the 430 hydrants, 216 are on high service and 214 on low service.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	176.50	July,	180.80
February,	176.15	August,	180.15
March,	175.95	September,	179.05
April,	178.90	October,	178.45
May,	180.60	November,	178.00
June,	181.00	December,	178.05

The lowest point reached during the year was on March 10, being 175.85; the highest was on June 10 and was 181.40; mean height for the year was 178.86 which was 1.26 feet higher than the mean height for the year 1911.

A chart showing the rise and fall of the water in Penacook Lake during the years 1908, 1909, 1910, 1911 and 1912 is included with this report. It will be seen that the lake shows at the end of each year for the first four years, a net loss of head; the several years showing,

a loss of 4.85 feet from Jan. 1, 1908, to Dec. 31, 1908,

“ “ “ 1.00 “ “ “ 1, 1909, “ “ 31, 1909,

“ “ “ 1.25 “ “ “ 1, 1910, “ “ 31, 1910,

“ “ “ 1.40 “ “ “ 1, 1911, “ “ 31, 1911,

making a total loss of head of 8.50 feet from January 1, 1908, to December 31, 1911.

The year 1912 shows a net gain of 1.60 feet from January 1 to December 31.

The rainfall for the past six years was as follows:

1907,	39.36 inches.
1908,	26.25 “
1909,	30.94 “
1910,	30.19 “
1911,	34.13 “
1912,	36.43 “

The normal amount of rainfall is 40.11 inches and these figures are given in order to show the effect of the less than normal amount upon the lake during the past few years.

There being but few calls for extensions this year, the work of the department has been mainly the extension of the high service system in the section as already noted in this report. These lines are connected directly to the 20-inch main in North Main Street with the exception of North Spring Street which is an extension from the Pleasant Street 10-inch main. The ten hydrants which have been set on these lines are 8-inch, four-way, independent nozzle valve hydrants and are connected to the mains by 8-inch laterals. With these extensions, the high pressure service is enabled to be of protection to a much larger district than heretofore. The class of property thus protected includes public schools, churches, business blocks, apartment houses, the Y. M. C. A. building and the Central Fire Station. The total cost was \$6,023.60.

All hydrants have been tested regularly and thoroughly examined and left in the best possible condition.

During the months of February and March we had a large number of frozen services owing to the unusually cold winter. The process of thawing water pipes by the use of electricity is familiar to many water departments but its application to water pipes in Concord was tried for the first time this year and found to be very satisfactory. A transformer was purchased from the Cushman Electric Company and with the assistance of the Concord Electric Company, the services connected to iron mains were thawed

by this method. The time occupied in thawing a service was generally from eight to fifteen minutes after connecting the wire to the pipes, and we were enabled to thaw some services which otherwise would have had to remain frozen until spring.

There have been relaid 32 services in streets that were to be resurfaced and curb-stops were placed on 21 old supplies.

We continue to use cement-lined wrought-iron pipe for all services, being convinced that for our water supply it has no superior.

The three-year-old pine seedlings raised by the department were transplanted to permanent locations around the lake and five thousand four-year-old seedlings were purchased from the Concord Electric Company and also set out. These have thrived in almost every case, very few having died for any reason.

Gypsy moths are beginning to make their presence known upon our water-shed and with the help of the brown-tail moth are doing considerable damage. It will be necessary to remove the hard wood in the infected districts to stop their destructive work and further spread.

There are not many requests at present for extensions in 1913 and it will not require a large amount of pipe for new work.

Our office equipment has been greatly improved by the addition of an addressograph to be used in making water bills and in addressing postal card notices, and a graphotype for making the metal plates used in the addressograph.

In conclusion, I would express my appreciation of the continued support and coöperation of your board.

Respectfully submitted,

PERCY R. SANDERS,
Superintendent.

REPORT OF THE ENGINEER OF THE PUMPING STATION.

PUMPING STATION, CONCORD WATER WORKS.

P. R. Sanders, Superintendent,

SIR:—I would report that the pumping machinery at the pumping station will need some repairs the coming year.

Air pump on Pump No. 2 will need new sleeves on the water end very soon as they are badly worn and do not hold up a good vacuum.

Pump No. 1 will need a general overhauling which will put the plant in good working condition for some years to come.

During the past four years the pumping has decreased on an average of eight million gallons a year which would show that the capacity of the plant is sufficient for some years.

The boilers have been inspected within three months and pronounced in very good condition.

Following is a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month.

STATEMENT.

126 tons	1,023 pounds	New River coal.
9 tons	1,822 pounds	Cumberland coal.
104 tons	1,537 pounds	Pocahontas coal.
81	gallons	valve oil.
12	gallons	engine oil.
36	pounds	waste.
13	pounds	grease.
11½	cords	slabs.

ENGINE RECORD.

AUDITOR'S STATEMENT.

I hereby certify that I have examined the books showing the receipts of the Concord Water-Works from January 1, 1912, to December 31, 1912, and find the same correct; and that the total amounts given therein correspond with the amount of receipts given by Percy R. Sanders, superintendent, in his report for the year and also with the receipts reported by William F. Thayer, city treasurer.

HENRY E. CHAMBERLIN.

E.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1912.

In form recommended by the New England Water-Works Association.

CONCORD WATER-WORKS.

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1910—21,497.

Date of construction—1872.

By whom owned—City of Concord.

Source of supply—Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING STATISTICS.

1. Builders of pumping machinery—Henry R. Worthington, Harrison, N. J.
2. Description of fuel used—*a.* Kind—bituminous.
b. Brand of coal—Pocahontas.
c. Average price of coal per gross ton delivered, \$4.817.
d. Percentage ash, 10%.
3. Coal consumed for the year—240.96 tons.
4. (Pounds of wood consumed) ÷ 3 = equivalent amount of coal—7,880.
5. Total equivalent coal consumed for the year for pumping purposes—244.46.

6. Total pumpage for the year without allowance for slip—281,801,009 gallons.

7. Average static head against which pump works—103.84 feet.

8. Average dynamic head against which pump works—105 feet.

9. Number of gallons pumped per pound of equivalent coal—514.

10. Duty =

$$\frac{281,801,009 \text{ gallons pumped, } \times 8.34 \text{ (lbs.) } \times 100 \times \text{dynamic head, } 105}{\text{Total fuel consumed, } 517,622 \text{ pounds.}} = 45,062,679$$

Cost of pumping figured on pumping station expenses, \$3,393.77.

11. Per million gallons pumped—\$12.04.

12. Per million gallons raised one foot (dynamic)—\$0.115.

STATISTICS RELATING TO DISTRIBUTION SYSTEM.

MAINS.

1. Kind of pipe—cast iron and cement-lined.

2. Sizes—from two-inch to twenty-four-inch.

3. Extended—6,882 feet during year.

4. Renewed—182 feet during year.

5. Discontinued—1,672 feet during year.

6. Total now in use—69.58 miles.

7. Number of leaks per mile for year—

8. Length of pipes two inches and less diameter—3.14 miles.

9. Number of hydrants added during year—public, 13; private, 2.

10. Number of hydrants now in use—public, 430; private, 65.

11. Number of stop gates added during year—31.

12. Number of stop gates now in use—1011.

13. Number of stop gates smaller than four inch—

14. Number of blow off gates—83.

15. Range of pressure on mains at center of city—88 pounds high service and 48 pounds low service.

SERVICES.

16. Kind of pipe—cement-lined.
17. Sizes—three-fourths-inch to ten-inch.
18. Extended—1,059 feet.
19. Discontinued—638 feet.
20. Total now in use—87,520 feet.
21. Number of service taps added during year—43.
22. Number now in use—3,752.
23. Average length of service—23.3 feet.
24. Average cost of service for the year—
25. Number of meters added during year—99.
26. Number now in use—2,243.
27. Percentage of services metered—59.78.
28. Percentage of receipts from metered water—79.65.
29. Number of elevators added—none.
30. Number now in use—10.
31. Number of standpipes for street watering—41.

REPORT OF THE BOARD OF PUBLIC WORKS.

To the Board of Aldermen:

In compliance with the city charter, the Board of Public Works herewith submits its second annual report for the year ending December 31, 1912.

The board has held forty-seven meetings, eleven of which were hearings held in various parts of the city on the premises covered by the petitions considered.

One hundred and eight petitions have been presented to the board; seventy-six petitions have been granted; in eight cases the petitioners have been given leave to withdraw; in six cases the petitions have been referred to the proper officials with full power.

A contract made between the City of Concord and the Concord Electric Company for lighting the streets with electricity, for a period of ten years, expired September 1, 1912; also a contract made between the City of Concord and the Concord Light & Power Co. for lighting the streets with gas, for a period of five years, expired December 30, 1912. The board has under consideration a contract with the Concord Electric Company for lighting the whole city with electricity, which the Board of Public Works consider advantageous to the city.

For a detailed account of work on streets and highways, garbage and sprinkling precincts, including receipts and expenditures, see report of superintendent of streets, herewith appended.

For report of the work in the several sewer precincts, see report of the city engineer, herewith appended.

Respectfully submitted,

CHARLES J. FRENCH, *Mayor*,

OLA ANDERSON,

ELMER H. FARRAR,

RICHARD A. BROWN,

FREDERICK I. BLACKWOOD,

EVERETT L. DAVIS,

NATHANIEL W. HOBBS,

Board of Public Works.

REPORT OF THE HIGHWAY DEPARTMENT.

OFFICE OF SUPERINTENDENT OF STREETS.

To the Board of Public Works:

GENTLEMEN,—As superintendent of streets I herewith submit the annual report of the work of the highway department for the year ending December 31, 1912.

PERMANENT IMPROVEMENTS AND THEIR MAINTENANCE.

The sum of \$7,700 was appropriated in 1912 for permanent improvements in Concord divided as follows: South Street from Pleasant to Fayette \$2,000, North Main Street from Pearl to Chapel \$2,700, Penacook Road \$2,000, Loudon Road, \$500, Pittsfield Road, \$500. The macadamizing of South Street was the first piece of work to be done. Tarvia was used in construction and at the end of the season the road appeared to be in good condition and to have withstood the motor traffic well. The gutters were paved, sidewalk bankings graded, crossings repaired and the road put in good shape for \$1,953.86. With the continuation of work on this street each year and with proper maintenance South Street will become one of our most attractive streets and I would recommend that the section from Fayette to Thorndike be macadamized next season. At the beginning of the year when the annual appropriations were made it was expected to continue the work on North Main Street south from Pearl but the extensive work done on the sewer made it seem advisable to leave it until another year. It would have been unwise to put in macadam until the street had settled properly and next year it will no doubt be in condition to macadamize and I would recommend that that piece of road be one of the first to receive attention. Instead of using the appropriation on North Main Street it was transferred to North State for improving that street through West Concord village. This road had a fairly good stone chip foundation

but was exceedingly rough. With such foundation it was unnecessary to excavate to any great extent and we were able to improve the road for some distance at a comparatively small expense. The macadam should be continued south to Calvary cemetery to meet the macadam already in and the road should receive surface treatment early in the season.

A section of macadam on the Penacook Road near Willow Hollow had become so badly worn that complete reconstruction was necessary. Tarvia was used in construction. The surface of this entire road from Penacook to Concord should have surface treatment as early in the summer as possible. Merrimack Street in Penacook which leads to the railroad station has a section of macadam which has been in a long time and I would recommend that its reconstruction would be a matter of economy. Park Street from State to Main was macadamized about sixteen years ago and it should be reconstructed also.

Gravel was used again last summer in improving the Loudon and Pittsfield Roads and the work should be continued next summer.

While the highway between Penacook and Concord receives a great amount of automobile traffic the travel on Pleasant Street to St. Paul's School is fully as great. The larger part of that road has been in about ten years and the section from the Eddy estate to the School needs considerable repairing and resurfacing which should be done next summer. In fact all of the macadam should receive more or less surface treatment in order to keep it up to the standard. Last year we received \$650 from the state for resurfacing that portion of the Merrimack Valley boulevard on which the state had aided in constructing. The same road should be repaired this year and application has been made to the state highway department for aid in the work.

Concord has not gone into the matter of highway improvements to any great extent in any one year but have been doing a little each year. Our annual appropriations for

permanent improvements have been small as compared with other cities in the state and by this method we have gradually increased the mileage of good roads and endeavored to keep them in repair. The mileage is not so great that it requires large sums to maintain the roads but constant maintenance is necessary. The necessity for maintenance is increasing each year as the amount of motor traffic increases and it seems most unwise to build good roads unless we intend to keep them in repair. The increase in the motor traffic is making it more evident that more effective methods of dust laying must be used. There are a number of good dust layers for macadam roads but to find a satisfactory one for the unimproved streets is a problem. Last summer we used some tasscoil which was quite satisfactory.

TREES.

The amount of work necessary on the trees is increasing instead of decreasing. We still have the brown-tail moth and the elm tree beetle and the indications are that we shall have a considerable amount of work on account of the gypsy moth. With the additional sprayer purchased last spring we were able to do effective work against the spread of the elm tree beetle and we hope that another season will show that no great amount of damage has been done to the elms in Concord.

SPRINKLING.

The street sprinkling service last summer was very unsatisfactory, due to the lack of teams to run the sprinklers. The amount of automobile traffic on all the streets is increasing; for, beside the pleasure riding, we have the delivery truck, etc., which makes effective dust laying necessary. I would recommend that oil be used on the streets where it would be practical.

GARBAGE.

The collection of garbage is becoming quite a proposition as the amount to be collected and the distance that it must be hauled increases. Wherever we have dumped garbage there have arisen so many complaints that we have been forced farther and farther back until the dumps are some distance away and for that reason I think the purchase of an auto truck for the collection of garbage would be an economy.

GENERAL WORK OF DEPARTMENT.

The usual amount of general work was done by the department during 1912. Several smaller bridges were repaired, one on the Canterbury Road over Hackett's Brook rebuilt and the Pembroke and Loudon bridges repaired. The bridge at Richardson Mill needs repairing but I understand that the town of Pembroke is to recommend a new bridge at their annual town meeting. If a new bridge is built it will be necessary for Concord to rebuild their abutment. The Horse Hill bridge is in special need of painting and, in fact, all the iron bridges in the city need painting. The usual amount of new catch basins were built and several reconstructed. About the same number of new concrete walks were laid and the edgestone around the new Historical building was reset. A large number of old concrete walks were repaired and there are still a great many in need of repairs. Quite a number of gravel sidewalks were built during the year. There is urgent need of a new shed and storeroom at the city lot as we lack suitable room to properly house the equipment of the department and is a matter which should receive your immediate attention.

The arrangements whereby we were able to locate the crusher at the old Putney Quarry, so-called, in West Concord has been a great advantage to the department as it is much easier of access and more convenient in every way.

Our crusher has been in use for a long time and has become so expensive to repair that I would recommend the purchase of a new one. Several meetings of the Massachusetts Highway Association and the Good Roads convention at Cincinnati, Ohio, which I attended have been a great help in keeping informed on the best methods of road building and other work of a highway department.

I would thank the board of public works for their interest in the department and for their courtesies to me. The financial statement shows the various sub-divisions of the work of the department.

Respectfully submitted,

ALFRED CLARK,
Superintendent of Streets.

REPORT OF SEWER DEPARTMENT.

CITY ENGINEER'S OFFICE, CITY HALL,
CONCORD, N. H., December 31, 1912.

To the Board of Public Works:

The second annual report to this board, showing the funds available and the expenditures for construction and repairs, flushing, tools and maintenance in the city precinct, the West Concord precinct, the East Concord precinct and the Saint Paul's School precinct, is herewith submitted, together with a general statement of the condition of the sewers in the City precinct.

CITY SEWER PRECINCT.

One much needed addition has been made to the mains in this precinct, viz.: a new main in North Main Street, from Hall's Court northerly to the junction with Washington Street sewer. This sewer was built of "Segmental Block" after an investigation of other materials and cost of same.

The Board of Public Works voted to adopt this block as it seemed to promise a saving of \$1,000 over concrete and brick construction.

In the opinion of your engineer this amount was saved to the city by the use of this block. The sewer was completed and put in operation, and, up to date, I see no reason to regret the adoption of this material.

The work was not completed as early as was desired, but the condition of the labor market made it practically impossible to get a sufficient number of laborers to complete the work as was intended.

The majority of the main sewers in this precinct are inadequate in size to perform the work required of them, and their condition together with some measures for relief should receive immediate attention, as many serious com-

plications may arise if their present conditions are neglected.

Most of the laterals are in good condition, of sufficient size to properly perform their functions, but are rendered unfit by the lack of larger mains to relieve them of their loads, in case of sudden showers and protracted rain-storms.

The many complaints from flooded premises during the past season, are due to the small sized mains, and they are a continual menace to the health and sanitary condition of the city.

Your serious consideration of the condition of our main sewers is of vital importance to every resident of this precinct.

The cost of the North Main Street sewer was materially increased by the masses of boulders encountered for about three hundred feet near Court Street. The boulders were closely packed together and the cost of removing them by hand drilling was about \$450. It was not possible to blast them owing to the presence of an old gas main and the house connections for gas, sewer and water being laid bare in the trench.

A new sewer was laid in Railroad Square from the foot of Pleasant Street to the 28 inch x 48 inch brick sewer near the north end of the passenger station trainshed.

An extension of the Carter Street sewer was laid, at its westerly end, to provide for houses devoid of sewerage facilities.

The stoppage of an old culvert under North Main Street, near the Lyster Brothers market, necessitated the laying of a drain to the rear of the fishmarket on their premises. An agreement was made with the Lyster Brothers for the maintenance of the drain, by them, if the city would construct it.

This agreement is on file in the office of the city clerk.

NEW WORK 1912.

RAILROAD SQUARE.

273 feet of 10-inch pipe laid.

Paid for labor,	\$294.16
pipe,	77.29
cement,	13.30
brick,	25.50
trucking,	23.00
castings,	23.32
oil,	1.10
B. & M. R.R. services,	1.15

 \$458.82

Average cost per lineal foot, \$1.680+.

- Material excavated, sand, gravel, hard-pan and soft clay.

LYSTER BROTHERS DRAIN.

Paid for labor,	\$291.77
pipe,	40.01
cement,	3.80
brick,	11.05
sand,	1.50
castings,	11.85
trucking,	2.10
tools,	.40
salt,	6.30
blacksmith,	8.05
oil,	.50
repairing concrete sidewalk and road- way,	21.47

 \$398.80

NORTH MAIN STREET.

1.055 feet of Segmental Block.	
Paid for labor,	\$4,980.44
segmental block,	2,340.14
unloading same,	58.42
cement,	147.05
brick,	113.75
castings,	67.38
oil,	8.80
hardware,	45.10
Water Works for water,	7.48
for lumber,	277.59
blacksmithing,	45.68
repairs,	7.65
shanty,	132.23
trucking,	265.50
medical services,	2.00
repairs to concrete crossings,	30.01
	<hr/>
	\$8,529.22

Average cost per lineal foot, \$8.084+.

Material excavated, sand, gravel, clay, hard-pan and boulders.

CARTER STREET.

100 feet of 10 inch pipe laid.	
Paid for labor,	\$35.36
pipe,	25.88
cement,	1.00
trucking,	3.50
	<hr/>
	\$65.74

Average cost per foot, \$0.657+.

Material excavated, sand.

REPAIRS.

Waverly Street,	\$1.46
Chandler Street,	118.70

WILL B. HOWE,
City Engineer.

REPORT OF THE BOARD OF EXAM- INERS OF PLUMBERS.

CONCORD, N. H., December 31, 1912.

To the Board of Mayor and Aldermen:

The thirteenth annual report of this board is herewith submitted.

The membership of the board is as follows: Charles H. Cook, M.D., Harris S. Parmenter, a journeyman plumber, and Will B. Howe, city engineer.

Harris S. Parmenter is chairman of the board and Will B. Howe, clerk.

Three meetings were held. Six applicants for journeymen's licenses were examined and passed. One applicant failed to present himself for examination after having paid the required fee of one (1) dollar.

The total receipts from all sources were thirty-two (32) dollars, for which amount the clerk holds the receipts of the city treasurer.

The total expenditure for the year was one (1) dollar for postage.

The attached table gives the names of all plumbers authorized by this board to work at the business of plumbing for the year ending March 31, 1913, the date of renewal and expiration of said licenses, or certificates, the dates of examinations, opposite the men examined and the fees received.

PLUMBERS, CERTIFICATE AND LICENSES ISSUED AND RENEWED DURING 1912.

REPORT OF BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1912.

To the Board of Mayor and Aldermen:

The seventh annual report of this board, showing its recommendations to the Board of Water Commissioners and the number of hydrants set during the year 1912, is herewith submitted.

At a meeting of the board May 1, 1912, it was voted to recommend setting a hydrant on the easterly side of Fisk Road, opposite the residence of Albert S. Trask.

On July 18, 1912, a communication was received from residents of Penacook requesting this board to recommend the placing of a hydrant at, or near, the junction of Electric Avenue and Washington Street. On July 23, the board visited the location above mentioned and voted to recommend that a hydrant be placed at the southwesterly corner of the aforementioned streets.

The following hydrants have been set during the year:

A four-way high service on School Street near Durgin Street.

A four-way high service on School Street at North State Street.

A four-way high service at the junction of School and Green Streets.

A high service at North Spring and School Streets.

A four-way high service at South State and Pleasant Streets.

A four-way high service on North Spring Street at the High School.

A four-way high service at North State and Warren Streets.

A four-way high service at Warren Street and Odd Fellows Avenue.

A four-way high service on Capitol Street between North Main Street and North State Street.

A hydrant on Fisk Road opposite A. S. Trask's house.

A hydrant on Washington Street at its junction with Electric Avenue.

Respectfully submitted,

WILL B. HOWE,

W. C. GREEN,

PERCY R. SANDERS,

Board of Hydrant Commissioners.

REPORT OF CITY SOLICITOR.

To the Board of Aldermen:

In this, my second annual report as city solicitor, I desire to present for the information of the board the position of the city in regard to the various legal matters in which it has been interested during the year 1912. This report will describe the progress that has been made with the various cases brought against the city and will show their status at the present time.

There were two cases entitled *Boston & Maine Railroad v. Concord*, upon the docket of the Merrimack County Superior Court at the October term, 1912. These were both petitions praying for the abatement of taxes assessed by the city upon Contocook River Park, one for the year 1910 and one for the year 1911. The railroad claimed that this property was not taxable by the City of Concord but that it is included in the general railroad tax for the years mentioned. The first case was reserved for the Supreme Court but never transferred and in December of last year both cases were voluntarily dismissed by the petitioner without cost to the city. Another case, *Jennie P. Martin v. Concord*, a suit to recover damages for injuries to the plaintiff's real estate on the corner of South State and Downing Streets alleged to have been caused by defective sewers, I expected to have tried during the year but owing to the inability of counsel to attend to the same this case is still on the docket. *Carolyn F. Stickney v. Concord*, is another case in the same situation. This was an appeal from an award of \$300 damages made to the plaintiff by the board of aldermen on account of the laying out and construction of a sewer from North Main Street through the plaintiff's land to the Merrimack River. I have strong hopes that this case may be settled eventually for the amount awarded by the board of aldermen.

Concord Street Railway v. Concord, an appeal taken by the Concord Street Railway from an award of damages to it by the board of aldermen upon the laying out of a highway in Penacook entered at the April term, 1900, has been dismissed for lack of prosecution.

Grace O. Dutton v. Concord, a suit for damages sustained by reason of a defective culvert in a highway, which was entered at the April term, 1911, was tried by jury at the April term, 1912. The plaintiff asked \$500 damages and the verdict of the jury awarded her \$187.

Another case brought against the city for personal injuries sustained by reason of a defective highway is that of *Gilbert S. Hubbard v. Concord* which was entered at the October term, 1911, and in which the plaintiff claims he is damaged to the amount of \$5,000. I had strong hopes of trying this case at the April term, 1912, but it was not reached. It will be in order for trial at the April term, 1913.

The case of *Concord v. Patriot Publishing Company* for taxes for the years 1909 and 1910, entered at the October term, 1910, has been dismissed from the docket. This case was against the old Patriot Company and not the present owners, but was settled by the present company, the New Hampshire Patriot Company, for the old company. Another case in which the city is concerned is that of *Eben Hemphill v. Concord*, a case for personal injuries brought in Hillsborough County in which the plaintiff asks \$6,000 damages, having sustained a broken leg while working for the city upon the highway. This case will be in order for trial by jury at the May term of the Superior Court for Hillsborough County in Manchester.

Some interest was created in the city's prosecution of the case *State v. Norris A. Dunklee*. The defendant was operating taxi-cabs within the city limits without having obtained a license so to do from this board. He claimed that the city ordinance requiring all persons who operated hackney coaches, cabs, etc., within the city limits for the purpose of carrying passengers for hire did not apply to him as he had obtained licenses for his taxi-cabs from the

secretary of state in accordance with the state statutes. The defence was set up also that our city ordinance was inconsistent with the motor vehicle law passed by the Legislature and was, therefore, superseded by it. This law provides that no city ordinance which restricts the use of automobiles upon any of the highways of the state should be valid. My contention before the supreme court was that our ordinance merely regulated the conduct of certain business with automobiles and that the city should have the right to regulate the business of carrying passengers for hire under its police powers. The result was that the Supreme Court upheld the state's view of the case and required the defendant to submit himself to the jurisdiction of this board in the conduct of his business.

I am glad to report that the case of *Henry M. Baker, Exr. v. Concord*, a petition for the abatement of taxes assessed for the year 1911 upon the homestead of Mrs. Mary Baker G. Eddy, has been voluntarily dismissed, the petitioner having elected to pay the taxes assessed rather than prosecute the case.

Two other cases in which the city is interested and which complete the list are *Concord v. Frank W. Sanborn*, and *George L. Theobald v. Concord*, the first a suit brought by the city for the collection of taxes, and the second a suit brought against the city for damages arising out of a dispute over the legality of the teaming ordinance. Neither case has as yet reached the trial stage.

During the year in addition to the handling of the above named cases I have performed the routine work of the office such as drafting ordinances, resolutions, contracts, deeds, etc., advising committees of the board and city officials. I have also prosecuted the usual number of criminal cases for the police department before the police court.

In closing this report for the year 1912 I desire to express my appreciation for the month's leave of absence granted me on account of ill health.

Respectfully submitted,

ALEXANDER MURCHIE,

January 11, 1913.

City Solicitor.

REPORT OF CLERK OF POLICE COURT.

CONCORD, N. H., February 24, 1913.

To The City Council:

The clerk of the police court submits the following report for the year 1912.

Number of civil cases entered in court January to December, 1912, inclusive, was thirty-nine. Received entry fees for same at fifty cents each, nineteen dollars and fifty cents (\$19.50). Paid to city treasurer nineteen dollars and fifty cents (\$19.50).

Respectfully submitted,

RUFUS H. BAKER,
Clerk of Police Court.

REPORT OF COMMITTEE ON THE JOHN KIMBALL PLAYGROUND.

To the Board of Aldermen:

The committee respectfully submits the following report for the year 1912. The sum of four hundred dollars (\$400) was appropriated, which was expended. The work done on the Kimball Playground this year was exceedingly interesting from several points of view. The instructor was a man capable of instilling the principles of morality as well as of managing the games and sports. He was able to reduce profanity on the grounds to a very small amount. All of this has tended to establish the playground as a factor in education.

The instructor commented favorably on the use of the grounds by little children in the morning, by the older girls on spare Saturday afternoons, and by the boys in the early evenings. Contests were enjoyed by the boys and girls, and interest was excited by simple prizes. Particularly good work was done in jumping and vaulting.

While no special means were taken to advertise the work accomplished, the committee feel sure that it has not been equalled in any previous year. A complete equipment, level grounds, and accommodations for very hot weather would add greatly to its value.

REPORT OF CEMETERY COMMISSIONERS.

To the Board of Aldermen:

The amount placed at our disposal for the year 1912 for Blossom Hill Cemetery was \$5,948.71 and we have expended \$6,110.57; and for the Old North we received \$594.12 and expended \$593.51 for a detailed account of which we refer you to the report of the City treasurer. The burials for the past year have been: in Blossom Hill Cemetery, one hundred and ninety-six (196), and in the Old North fourteen (14). The chapel has been used six (6) times. In addition to the usual appropriation of \$100 for the Old North Cemetery we would recommend an additional one of \$200, for a new fence on the north side and to enclose the Quaker burial lot recently purchased. The usual appropriation of \$1,000 for Blossom Hill we think will be sufficient for the coming year.

GEORGE A. FOSTER, *Secretary,*
Board of Cemetery Commissioners.

WEST CONCORD, N. H., January 1, 1913.

To the City Council:

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The board of assessors submits to your consideration the following facts and figures showing the valuation of the city and of each of its school districts and special precincts, with the amount of taxes raised in each and returned to the tax collector for collection.

The work of making up the inventory for the year was commenced in March and the tax warrants given the tax collector November 18.

All real estate in the city was inspected by the full board, and valuations equalized as much as possible, in the time at our command, some property being placed at three, four, and even five times its former valuation.

In the work of making up the lists for taxation we found the maps of the various wards of great assistance.

The strict enforcement of the return of inventories disclosed a large amount of bonds, money at interest, and other taxable property.

TABULATION OF WARRANTS SUBMITTED FOR ASSESSMENT,

SETH R. DOLE,
Collector.

CONCORD, N. H., January 31, 1913.

REPORT OF THE PUBLIC BATH

FOR THE SUMMER ENDING 1912.

Mr. C. J. French,
Mayor, City of Concord, N. H.

DEAR SIR:—I hereby submit to you a report of the public bath during the months of June, July, August, and the first week of September.

The public bath was officially opened June 14 and closed on Labor Day, September 2.

The conditions at the bath house were ideal for the past summer. We had extremely good weather all the season. The attendance was large and composed of mainly from boys of city.

The boys conducted themselves in a creditable manner and caused very little trouble.

June	1,657
July	6,642
August	2,524
September	39
<hr/>	
Total attendance	10,862

Number of boys saved from probable drowning, 5.
Cause in each case due to exhaustion.

Number of boys who have learned to swim during the past summer, 33.

RECOMMENDATIONS.

The bath house, as it now stands should be moved nearer the river. (It is at present a distance of 150 yards from the river.)

The money saved from this year's appropriation should be spent for a new boat. (The one at present is in bad condition.)

That a suitable bath house be built for the use of women bathers. (There is a great deal of interest among women for a suitable place for the use of women bathers.)

On Labor Day I got up a series of races for the boys of the city, as a fitting climax of the summer's work. Each store that I called on gave a suitable present for the various events; in all I had twenty-six presents. The races were entirely successful and ended the public bath season in a very fitting manner.

ATTENDANCE—JUNE 14 TO SEPTEMBER 2.

JUNE.

June 14 to 15.....	61
17 to 22.....	451
24 to 29.....	863
30.....	282

HENRY E. CHAMBERLIN,
Overseer of the Poor.

TREASURY DEPARTMENT.

TRUST FUNDS.

CITY TREASURER'S ACCOUNTS AS CUSTODIAN OF TRUST FUNDS.

ABIAL WALKER TRUST.

For the benefit of the school fund.

Capital,	\$1,000.00
Income received, 1912,	40.00
Paid into the city treasury,	40.00

Deposited in Merrimack County Savings Bank.

COUNTESS OF RUMFORD TRUST.

For the benefit of the Concord Female Charitable Society. Income to be applied to the charitable uses and purposes of said society, and under its direction.

Capital,	\$2,000.00
Income received, 1912,	90.00
Paid Grace E. Foster, treasurer of the society,	90.00

Invested in Union Trust Company,	1,000.00
Deposited in New Hampshire Savings Bank,	1,000.00

MINOT ENCLOSURE CEMETERY TRUST.

Donated to the city by Abby P. Minot, the income to be expended annually by the superintendent of cemeteries for the preservation, care and embellishment of the burial lots known as the Minot enclosure, under the direction of the duly appointed officials, or members of the Minot Cemetery Association.

Capital,		\$3,000.00
Income received, 1912,		105.00
Paid H. H. Dudley, treasurer,		105.00

Deposited (at $3\frac{1}{2}$ per cent.) with City of Concord, in general account.

DAVID OSGOOD TRUST.

The purpose of the donor of this trust was that the income should be used for the purchase of school-books, for poor children; but since the bequest was made, a state law has been enacted that requires the town and cities to buy all the school-books; consequently the beneficiary of the fund, \$200, and accumulations, amount to \$555.03 and same will continue to accumulate forever without any benefit to any object, unless some legal action can be taken to divert the income from the specified purpose of the donor.

Capital,		\$200.00
Balance income from last year,	\$333.71	
Income received, 1912,	21.32	
	<hr/>	355.03

Capital, \$200, deposited in New Hampshire Savings Bank; income deposited in the Union Trust Company.

COGSWELL COLLECTION OF THE PUBLIC LIBRARY.

Bequest of P. B. Cogswell, the income to be spent annually for the purchase of books of a biographical, geographical, historical and scientific character, and the books relating to science shall be those that give the latest developments and discoveries by scientific persons from year to year.

Capital,		\$2,145.00
Income received, 1912,		85.87
Paid into the city treasury,		85.87

Deposited in Union Trust Company,	1,500.00
Deposited in New Hampshire Savings Bank,	500.00
Deposited in Loan and Trust Savings Bank,	145.00

G. PARKER LYON PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1912,	35.00
Paid into the city treasury,	35.00

Invested in City of Concord $3\frac{1}{2}$ per cent. bond.

FRANKLIN PIERCE PUBLIC LIBRARY TRUST.

Capital,	\$1,000.00
Income received, 1912,	40.00
Paid into the city treasury,	40.00
Deposited in New Hampshire Savings Bank,	500.00
Deposited in Union Trust Company,	500.00

THOMAS G. VALPEY PUBLIC LIBRARY TRUST.

Capital,	\$500.00
Income received, 1912,	17.50
Paid into the city treasury,	17.50

Invested in City of Concord $3\frac{1}{2}$ per cent. bond.

BLOSSOM HILL CEMETERY FUND.

This fund is increased each year by the addition of one-half the amount received from the sale of lots. The income of the fund is used for the care, protection and ornamentation of Blossom Hill Cemetery.

Amount of capital January 1, 1912,	\$25,679.61
Received from one half sale of lots,	
1912,	1,666.77
Received from income of fund,	1,022.16
	<hr/>
	\$28,368.54

Credited City of Concord, general account,	\$1,022.16	
Amount of capital, January 1, 1913,	27,346.38	
		<u>\$28,368.54</u>

Invested in City of Concord 4% bonds,	\$8,000.00	
Invested in City of Concord 3½% bonds,	2,000.00	
Deposited in New Hampshire Savings Bank,	5,842.04	
Deposited in Union Trust Company,	11,405.34	
		<u>\$27,346.38</u>

OLD NORTH CEMETERY FUND.

As the lots in this cemetery are all sold, there is no provision for an increase of the fund. Income devoted to the care, protection and ornamentation of Old North Cemetery.

Amount of capital, January 1, 1912,	\$815.00	
Received from income of fund,	30.10	
		<u>\$845.10</u>

Received from income of fund, 1912,	24.00	
		\$626.35
Unexpended income, January 1, 1913,	\$303.85	
Amount of capital, January, 1 1913,	322.50	
		\$626.35

Capital and unexpended income deposited in New Hampshire Savings Bank.

WEST CONCOED SEWER PRECINCT SINKING FUND.

The city ordinance establishing the West Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund which provided that the following amounts should be raised annually upon the taxable property of the precinct, for the purpose of paying the bonds as they mature, viz:

\$1,400 annually for five years from October 1, 1907.

Balance on hand January 1, 1912,	\$5,871.58	
Income received, 1912,	178.84	
Received from city of Concord,	1,400.00	
		\$7,450.42

Transferred to City of Concord general account to pay bonds maturing, 1912,	\$7,000.00	
Deposited in Union Trust Company,	450.42	
	<hr/>	\$7,450.42

PENACOOK SEWER PRECINCT SINKING FUND.

The city ordinance establishing the Penacook sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the following amounts should be raised annually upon the taxable property of the precinct for the purpose of paying the bonds as they mature, viz.:

- \$100 annually for fifteen years from October 1, 1900.
- \$1,000 annually for five years from May 1, 1908.
- \$500 annually for six years from July 1, 1914.
- \$500 annually for three years from October 1, 1915.

Balance on hand January 1, 1912,	\$4,475.65	
Income received, 1912,	179.00	
Received from City of Concord,	1,100.00	
	<hr/>	\$5,754.65
Balance on hand January 1, 1913,		\$5,754.65

Deposited in Union Trust Company.

EAST CONCORD SEWER PRECINCT SINKING FUND.

The city ordinance establishing the East Concord sewer precinct, and authorizing loans on the credit of the city to construct the system, also created a sinking fund, which provided that the sum of one hundred dollars (\$100) should be raised annually for twenty years from July 1, 1895, upon the taxable property of the precinct for the purpose of paying the bonds as they mature.

Balance on hand January 1, 1912,	\$219.88	
Income received, 1912,	8.76	
Received from City of Concord,	100.00	
	<hr/>	\$328.64
Balance on hand, January 1, 1913,		\$328.64

Deposited in Union Trust Company.

SETH K. JONES TRUST.

Bequest to the city of Concord to be invested in some New England city bond, the income to be applied as follows: Twelve dollars each year to keeping lot in Blossom Hill Cemetery in neat and orderly condition; six dollars each year to be deposited in some savings institution to create a monument fund; and the balance of the income to be expended each year in purchasing books for the Concord public library.

Capital,		\$1,000.00
Income received, 1912,		35.00
Transferred to Seth K. Jones monument fund,	\$6.00	
Transferred to City of Concord general account for public library,	17.00	
Paid for care of lot,	12.00	
	<hr/>	\$35.00

Capital invested in City of Concord $3\frac{1}{2}\%$ bond.

SETH K. JONES MONUMENT FUND.

Increased six dollars each year from the income of the Seth K. Jones trust. The entire accumulation to be expended every fifty years in erecting a new monument on his lot in Blossom Hill Cemetery.

Accumulations to January 1, 1912,	\$377.51
From S. K. Jones trust,	6.00
Income received, 1912,	14.96
	<hr/>
	\$398.47

Deposited in Loan and Trust Savings Bank.

OLD NORTH CEMETERY RECEIPTS.

Amounts received from sundry collections and income of permanent funds are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor, from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

RECEIPTS.

H. J. Alexander, care,	\$2.00

 \$364.02

CREDIT.

Income from sundry trust funds as charged to this account transferred to City of Concord general account,	\$207.25	
Transferred to City of Concord general account,	156.77	
	<hr/>	\$364.02

BLOSSOM HILL CEMETERY RECEIPTS.

One half of the receipts for the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

RECEIPTS.

To coupons overdue January 1, 1912, and not presented,	\$231.00	
Coupons due, 1912,	21,042.50	
	\$21,273.50	

CR.

By coupons paid, 1912,	\$20,920.00	
Coupons due and not presented,	353.50	
	\$21,273.50	

I hereby certify that I have examined the foregoing account of William F. Thayer, city treasurer, for the year 1912, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and cash balance to be ninety-one thousand seven hundred eleven dollars and fifty-two cents (\$91,711.52), and as treasurer of the city water department, cash balance to be sixteen thousand

nine hundred ninety-eight dollars and forty-eight cents (\$16,998.48).

I have also verified the account of the trust and sinking funds of the city and find such trust and sinking funds invested, and the income thereof for the year 1912 accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN,
City Clerk.
